***3. Discussion and Comments Regarding Changes to Nevada Administrative Code 631.2211 – 631.2256 Authorizing the Administration of Conscious Sedation, Deep Sedation, and General Anesthesia for Patients of All Ages. The General Topics Include: Airway Management, Accreditation of Dental Facilities, Oral Sedation Methods, Anxiety Control and Administering (For Possible Action)**

Mr. Drizin went over the committee’s discussion from their last meeting. Currently there was no set mechanism on how to handle failed inspections and issuing temporary orders of suspension, and the time length of having to wait for the next available Board Meeting. Mr Drizin went over concerns regarding the regulations, the appeals process, and the wait period for Board’s approval for site re-inspection. Further, Mr Drizin went over the issue of a site not having certain required items on-site and relied on the person administering to bring the items not readily available on site. Mr Drizin’s recommendation is that these proposed changes be scheduled for a workshop. No public comment.

MOTION: Dr. Champagne made the motion to hold a public workshop for the recommended changes. Second by Dr. Pinther. No public comment. All in favor.

***4. Possible recommendations to the Board based on Committee’s review Regarding NAC 631.2211 – 631.2256 (For Possible Action)**

Recommendations discussed will be scheduled for a workshop. Ms. Kelly indicated that notice of a workshop requires that notice of the workshop be posted 15 business days. Dr. Miller asked that a workshop be scheduled at the September Board meeting.

Dr. Guillen stepped forward to discuss other potential topics to be addressed at the workshop. Ms. Kelly interjected and stated that there was also discussion of possible changes in terms and definitions that require rule-changing.

Ms. Kelly indicated that information provided from AAAHC in the AB123 from 2009, were some changes for administration of sedation and locations affecting medical doctors and physicians, MD’s, and DO’s. The Board became a recognized accrediting body, but may only accredit facilities of licensed Nevada dentists through the Board’s inspection process. The Board is to consider amending the laws to allow for the accreditation of the Joint commission.

There were discussions regarding medications required in an emergency kit and, perhaps, revising the current list of the medications required under ACLS. Dr. Guillen recommended requiring that an office have periodic emergency sessions to review the emergency kits to ensure the kits are current and medications are up-to-date. Ms. Kelly commented on requiring that all permit holders be required to have ACLS/PALS.

Ms. Kelly indicated that the committee will have to hold a couple of workshops, and indicated that they can hold the first workshop in September and hold the second in November.

They went on to discuss site inspections and how the owner that holds or has applied for the permit must be on site during the inspection, reason being that sometime office staff is not sure of where all required items are located.

Ms. Kelly indicated that inspections pertain to the office and an evaluation pertains to the individual whom will be administering. Dr. Guillen read a statement regarding his opinion on sedation and the changes that have occurred throughout time. He offered his recommendations on how to handle emergencies.

5. Public Comment: No comments made.

Note: No vote may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on an agenda as an item upon which action may be taken. (NRS 241.020)
