182 Mrs. Shaffer-Kugel noted to the Board that Mrs. Hummel was present to answer any questions. Mrs.
183 Hummel noted to the Board in looking at the actual budget, they are coming in rather close to what they
184 budgeted and what the actual expenses have been. She added that there are some funds that will be
185 available to allocate to their reserves. However, until they reach the end of the fiscal year, she is unable to
186 determine what that amount will be. She noted to the Board that with regards to Infection Control, there is
187 currently no revenue to cover the costs, and that what they budgeted will come fairly close to where they will
188 be at the end of the fiscal year. Mrs. Shaffer-Kugel noted to the Board that they have conducted random
189 audits, which is another item that incurs costs and receives no revenue. She added that she has spoken
190 with Fred Hillerby regarding BDR's that will be introduced at the next legislative session, which will include
191 language that will allow the Board to begin charging for the initial IC inspections. Dr. Miller inquired about
192 the over-budget items in the Statements of Revenues and the balance of funds. He inquired further, on how
193 she projects what the Board's legal fees will be. Mrs. Hummel indicated that it is a difficult assessment
194 because there is no way to know how many complaints will turn into stipulation agreements, which is when
195 they are able to recover investigation and legal fees.
