53 \* 3. **Update and Discussion of FY2014 Budget Report** (For Possible Action)  
54

55 Mrs. Hummel indicated that to the Board all the information related to FY2014 could be found in their Board  
56 books. There were no questions or comments made.  
57

58 \*4. **Review and Discussion of FY2015 Draft Budget** (For Possible Action)  
59

60 Mrs. Shaffer-Kugel indicated the information for the Budget of FY 2015 was in their Board books. Mrs.  
61 Hummel stated to the committee members that she expects a decrease in revenue for this upcoming fiscal  
62 year based upon a decrease in licensure applications. However, that with the fee increases; the Board can  
63 expect an increase in revenue for anesthesia to offset the expense to conduct the anesthesia evaluation.  
64 Ms. Hummel discussed each section of fees as listed on the proposed budget. (See public documents).  
65 Mrs. Shaffer-Kugel indicated that some fees are not as easy to predict what the amounts will be, thus they  
66 estimate based on prior year amounts. Mrs. Hummel noted to the committee that some licensees are on a  
67 payment plan for the amounts owed to the Board per their stipulation agreements. Ms. Hummel continued  
68 to go over the differences in some of the sections listed in the proposed budget. Ms. Shaffer-Kugel added  
69 that all the information the evaluators would input into the documents used on the iPads, which will  
70 automatically be entered into the GL system for that individual that is having their office inspected. She  
71 further commented that with the iPads the Board would know immediately who has passed or failed an  
72 inspection; adding how this would cut the costs of having to input such information into the system, and that  
73 they will no longer have to wait for the inspection/evaluation forms to be returned to the office before they  
74 could input the information. Mrs. Hummel went over the sections of the budget and the reasons for some of  
75 the decreases or increases in different areas. She noted to the Board some of the figures are based on  
76 assumptions as some areas are difficult to predict what the fees will be.  
77

78 Committee was very pleased with the proposed budget and how the Board has been able to turn things  
79 around.  
80

81 Ms. Hummel commented to the committee that although the numbers for this fiscal year are projected, they  
82 do expect to have some dollars available to move towards the reserves account. Current reserves account  
83 is slightly over one million dollars, but hopes to be able to have \$1.5 million in the reserves account in the  
84 next few years.  
85

86 MOTION: Dr. Pinther made the motion to make the recommendation to the Board that they consider
