33 Mrs. Shaffer-Kugel indicated that Mrs. Hummel was present to answer any questions. Mrs. Hummel went over
34 the Boards' financials. Mrs. Hummel indicated that the Board was receiving more WREB applications than ADEX
35 applications. Mrs. Shaffer elaborated that many of the dental students were electing to take the WREB exam due
36 to an issue with the ADEX exam where one candidate failed a portion and wasn't given his opportunity to retake
37 the exam the same university, which incurred fees for the student to travel out of state. Therefore, more students
38 at UNLV School of Dental Medicine have elected to take WREB. It was noted that the Board does 100% of the
39 background checks and they have absorbed the costs in doing so.
40

- 41 (2) Approval of Proposed FY2016 Budget as Recommended by the Budget & Finance Committee
42 (For Possible Action)
43

44 Mrs. Shaffer-Kugel indicated that Mrs. Hummel went over the proposed budget for FY2016. Mrs. Hummel gave a
45 report of how the proposed budget was developed. She explained how the percentages of average increases, and
46 uses years to predict future expenses, etc. She explained that there are fixed expenses and variable expenses. She
47 added that dental renewals fees saw a significant increase. She went over the expenses and increases that the
48 Board will see in the upcoming FY. She indicated that she moved some items, especially some DSO expenses;
49 Investigations and complaints budgets. Dr. Sill commented that the board needs to see that they adopt a
50 regulation change to require that licensees submit an email address to the Board. Mrs. Shaffer-Kugel commented
51 to the Board that anyone that renews in paper form with the Medical board incurs a fee in addition to the renewal
52 fees. Board discussed potentially requiring licensees to provide an email address to the Board. Mrs. Shaffer-Kugel
53 indicated that she can post as part of a the dental hygiene and dental assistants workshop a regulation change to
54 require email addresses.
55

56 Mrs. Shaffer-Kugel indicated that they were looking into other companies that offer similar services to GL Suites,
57 especially since there fees were increasing by 9%. Mrs. Villigan commented to that Board that she noticed that
58 there are two staff members where their salary is actually less, that all other staff members were seeing an increase;
59 one being the Credentialing Coordinator. She inquired if the projected amounts included a bonus and if the
60 budgeted amount did not? Mrs. Hummel stated that the differences were due to the way the salaries are projected
61 now on merit increases. Mrs. Hummel indicated that the Board will be looking at adding another account because
62 there are too many funds sitting in the account currently. Dr. Miller inquired if the Board could look into another
63 account that perhaps will gain a better interest. Mr. Hunt indicated that there are certain limitations on how the
64 Boards and Commissions can invest. Per Dr. Miller's inquiry, Mrs. Hummel indicated that the Board conducts an
65 annual audit.

95 (1) Request from CDCA to forego the certification of success pass via US Mail to obtaining
96 information through CDCA's on-line portal (For possible action)
97

98 Mrs. Shaffer-Kugel explained that historically the Board required that the certifications from exam boards be sent
99 via mail confirming passage of examination. Further, that she confirmed with WREB and CDCA to allow
100 electronic certification. Mrs. Shaffer-Kugel went over the cons of allowing verifications to be done electronically,
101 versus continuing to require that certification be mailed to the office, which would offer the reliability of providing
102 correct and actual records, which would fall on the entity to be solely responsible for providing correct and
103 accurate records.

104
105 MOTION: Dr. Sill made the motion to accept online certification. Motion was seconded by Mrs. Wark. Discussion:
106 Ms. Solie inquired if applicants would only be able to submit online certification, or if applicants would have the
107 option to choose via online or hard-copy certification? Dr. Sill indicated that this would give applicants another
108 method of how they are able to provide exam certification. Dr. Miller inquired if it would now be on the board to
109 verify and retrieve the scores. Dr. Kinard inquired on what the access would provide us to ensure that it is a secure
110 level. The Board, after further discussion, decided to go forward with the online certification method so that they
111 can gain access to check the security and accuracy levels before deciding to allow applicants the options to have
112 their scores provided electronically. Dr. Sill withdrew his motion. Mrs. Wark withdrew her second to the motion.
113

114 MOTION: Dr. Sill made a new motion to table this item until next meeting to allow for further clarification.

179
180 Mrs. Shaffer-Kugel explained that should Dr. X wish to request a re-evaluation, the Board may authorize her to
181 approve the re-evaluation to avoid a delay between scheduled Board meetings. She reiterated that the situation has
182 since been rectified.

183
184 MOTION: Dr. Blasco made the motion to authorize the Executive Director to grant a re-evaluation should Dr. X
185 request one. Motion was seconded by Dr. Sill. All were in favor of the motion.

186

187 *c. Establish Interim Fee for the Initial Infection Control Inspection pursuant to AB89 (For Possible
188 Action)
189

190 Mrs. Shaffer-Kugel went over the rule change and what the Board's next step was to be. She went back and found
191 that the average costs to conduct an inspection costs the Board \$200-\$250 per inspection.
192

193 MOTION: Dr. Miller made the motion to establish an interim fee for initial IC inspection requests to \$250. Motion
194 seconded by Mrs. Solie. Discussion: Dr. Pisani inquired if there is additional staff time required. Dr. Miller inquired
195 that should the Board implement the use of tablets (provided by GL) if it would essentially save some time. Dr.
196 Blasco would like information on how much costs a re-inspection incurs. Mr. Hunt pointed out that the Board
197 must consider the random inspections, so Board should make a regulation change regarding failures and requiring
198 a summary suspension as a mechanism to keep safety in place. He indicated that only when the Board has a
199 substantial amount of evidence that an office is not compliant with IC guidelines, they cannot conduct a random
200 inspection. He added that if there is a complaint regarding the cleanliness of an office it is not considered an initial
201 or a random inspection, and therefore, the Board has no mechanism in place to allow them to summary suspend
202 someone for IC violations. Mrs. Villigan inquired if they could potentially refer cases to the Health Department,
203 which it was indicated that they could. All were in favor.
204
205

206 *d. Approval of Reactivation of Dental License – NAC 631.170(5) (For Possible Action)
207

208 (1) William R Rohel, DDS
209

210 Dr. Rohel was present in the North. Mr. Hunt indicated that Dr. Rohel was asking for a license with restrictions as
211 he has identified in his letter that he submitted. Should the Board issue Dr. Rohel the license with restrictions he
212 advised them that they would have to report the restrictions to the NPDB. Mr. Hunt explained what the Board is
213 required to report to the NPDB. Dr. Rohel indicated that he understood, but seemed uneasy about the restriction
214 of licensure being reported to the NPDB. Mr. Hunt noted to Dr. Rohel that he could request to table this item so
215 that he may seek legal advice. He was offered to go in to closed session, which he politely declined. Mrs. Shaffer-
216 Kugel indicated that he was requesting to reinstate his license with restrictions as outlined in his letter. She added
217 that they when she reports to the NPDB that she would note to them that Dr. Rohel elected to restrict his license
218 due to medical issues. Dr. Rohel indicated that he wanted to volunteer for the Adopt-A-Vet program to make some
219 dentures and appliances. Dr. Blasco indicated that he has not practiced dentistry since 2006 and that historically
220 the board has required a clinical exam or remediation (skills assessment) in order to reinstate a license. Dr. Rohel
221 commented that with his physical limitations that it would be difficult for him to pass a clinical. It was
222 commented that Dr. Rohel's best option would be a skills assessment that would be built around the skills he will
223 be performing. Dr. Miller commented that perhaps they could require a skill assessment built around removable
224 appliances. Mr. Hunt advised that it was to the Board's discretion. Dr. Pisani believed that Dr. Rohel would be a
225 valuable asset, and that he further believed a reasonable alternative would be a skills assessment. Mrs. Shaffer-
226 Kugel noted that a previous dentist with restrictions went to UNLV to have the skills assessment done. Mr. Hunt
227 advised that the Board could say that they could issue a license with a list of restrictions, and that upon an
228 assessment of certain areas, he can add/remove a restriction. Dr. Blasco inquired of Dr. Rohel asked if he had any
229 tactile dysfunction. Dr. Rohel indicated that he would like to simply volunteer or fill in for a friend to watch over
230 the practice. Dr. Sill noted that in the WREB exam they offer a pre-exam review of skills, and added that WREB
231 may be willing to accommodate Dr. Rohel to take that portion only. Dr. Blasco noted that in 2013 a doctor
232 presented himself with similar restrictions and the Board issued the license.
233

234 MOTION: Dr. Pisani made the motion to approve the reactivation of Dr. Rohel's dental license with restrictions to
235 diagnosis and treatment planning, and that should he want to add to his restrictions he would have to complete a
236 skills assessment for that specified skill. Motion seconded by Dr. Kinard. Both agreed to Mr. Hunt's added
237 language, that the skills assessment would be to add to his skills that he may conduct. All were in favor.
238 AMENDED MOTION: Dr. Pisani amended his motion to include prescription writing so long as Dr. Rohel holds
239 a license with the Nevada Pharmacy Board. Dr. Kinard amended his second to include Dr. Pisani's amended
240 language. All were in favor.

118 eventually pass the change, but they would required dental hygienists to pass WREB's Anesthesia exam. He
119 commented that the Wyoming Board is fundamentally bankrupt and thus have nothing pending. He reported

8. Announcements: Mrs. Shaffer-Kugel indicated that the two public workshops will be held with Board meeting on September 18. The first workshop will cover anesthesia, the second workshop will review the Dental Hygiene, dental assistant proposed changes, which will also be used to discuss changes to the IC inspection fees, and licensee emails.

Mrs. Shaffer-Kugel stated that for the first time ever in 13 years the Orders of Suspension were sent out on time on July 1st. She stated that this was possible thanks to many of the licensees using the online portal to renew. She stated further, that the Business license(s) information and military service information was submitted to the entities that required this information be collected by the Board.

She indicated that the Random CE audit have been generated, and that the notification letters are to be sent out the following week.

Mrs. Shaffer-Kugel noted that because the licensees are no longer placed on the agenda for approval, they will be listing new licenses on the Board website and noted on the agenda.

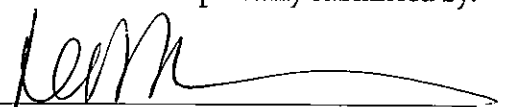

Dr. Pinther acknowledged staff for assisting in making the meetings run smoothly.
