15 Edward Gray DDS; and Joshua Saxe, DDS)  
16

17 MINUTES

18 Please Note: The Nevada State Board of Dental Examiners may 1) address agenda items out of sequence to  
19 accommodate persons appearing before the Board or to aid the efficiency or effectiveness of the meeting; 2)  
20 combine items for consideration by the public body; 3) pull or remove items from the agenda at any time. The  
21 Board may convene in closed session to consider the character, alleged misconduct, professional competence or  
22 physical or mental health of a person. See NRS 241.030. Prior to the commencement and conclusion of a contested  
23 case or a quasi judicial proceeding that may affect the due process rights of an individual the board may refuse to  
24 consider public comment. See NRS 233B.126.  
25

26 At the discretion of the Chair, public comment is welcomed by the Board, but will be heard only when that item is  
27 reached and will be limited to five minutes per person. A public comment time will also be available as the last  
28 item on the agenda. The Chair may allow additional time to be given a speaker as time allows and in his/her sole  
29 discretion. Once all items on the agenda are completed the meeting will adjourn.  
30

\*3. Review, Discussion of current Anesthesia Regulations NAC 631.003; NAC 631.004 and NAC 631.2211 – NAC 631.2254 and Draft Proposed Regulations for NAC 631.003; NAC 631.004 NAC 631.2211 - NAC 631.2254 pursuant to the new definitions for minimal and moderate sedation enacted through AB89. (For Possible Action)

Dr. Johnson discussed the group categories for levels of sedation, and single-dose medication.

Mr. Hunt interjected and stated that the appropriate approach would be for someone to make a motion to adopt or reject the proposed regulations, and through the discussion process either amend, delete, or change any of the proposed regulations.

MOTION: Dr. Miller made the motion to adopt the proposed regulations. Motion was seconded by Dr. Okundaye. Discussion:

NAC 631.003:

Dr. Moore inquired if they would be using the definitions as defined in AB89, and if they were listed as language in the statute. Mrs. Shaffer-Kugel responded affirmatively.

NAC 631.004:

There was discussion on whether or not to require a permit for minimal sedation. The consensus was to not require a permit for those administering minimal sedation, and further agreed to define minimal sedation as administering a single-dose medication only. Anything more than a single-dose of anything would be deemed moderate sedation. There was also discussion of requiring those administering in accordance to the minimal sedation definition would be required to attest on their renewal if they have met the continuing education requirements for those administering minimal sedation. After further discussion on minimal sedation, it was decided that they would remove the terms “minimal” and “pediatric minimal” as to avoid confusion.

NAC 631.2211:

There was a consensus to include the term ‘minimal’ so that it could be more clearly defined to avoid ambiguity for those wishing to use minimal sedation.

NAC 631.2212:

There were no recommended changes or amendments.

NAC 631.2213:

There was discussion regarding the joint commission and other changes to be made or taken into consideration. There was additional discussion regarding Advanced Cardiac Life Support and approved entities.

NAC 631.2217 – NAC 631.2223: No recommended amendments or changes.

NAC 631.2225:

Discussed and agreed to remove “allergy to.”

NAC 631. 2227:

Dr. Okundaye recommended removing items (f) and (h), changing ‘paddles’ to “pads”, and to include “oral and/or nasal air ways.” There was discussion to add a section that would outline what is needed for those with a pediatric moderate sedation permit.

114 NAC 631.2229:

115 Dr. Johnson recommended that they add "time administered" to (2)(b). There was a recommendation  
116 to add "AS Classification" to (1), and the subcommittee agreed to the amendment.  
117

118 NAC 631.2231:

119 Dr. Okundaye commented that subsection (d) and (e) could be deleted as they were now obsolete.  
120 There was a long discussion and a difference of opinion in requiring an Epi Pen Jr. or whether to allow for  
121 the use of an Epi Pen where dentists will need to draw the appropriate dosage needed to be administered  
122 on pediatric patients. The recommendation was that they change the language to give dentists the option  
123 to use an Epi Pen in the appropriate dosage amount for pediatric patients or to have the Epi Pen Jr.  
124

125 NAC 631.2233 and NAC 631.2235:

126 There were no recommended changes or amendments.  
127

128 NAC 631.2236:

129 There was a brief discussion regarding fees, to which Mrs. Shaffer-Kugel explained that the Board  
130 would address at a future time once the regulations become codified.  
131

132 MOTION: Dr. Miller withdrew his original motion to adopt the proposed regulations. Dr. Okundaye agreed to  
133 withdraw her second to the original motion. Motion was withdrawn.  
134

135 4. Public Comment: (Public Comment is limited to three (3) minutes for each individual)  
136

137 Dr. Dragon commend that he would like the subcommittee to clarify the term "single-dose."  
138

139 Note: No vote may be taken upon a matter raised under this item of the agenda until the matter itself has been  
140 specifically included on an agenda as an item upon which action may be taken. (NRS 241.020)

141 5. Announcements  
142

143 \*6. Adjournment (For Possible Action)  
144

145 MOTION: Dr. Miller made the motion to adjourn. Motion was seconded by Dr. Twesme. All were in favor of the  
146 motion.
