NOTICE OF AGENDA & TELECONFERENCE MEETING
FOR THE CONTINUING EDUCATION COMMITTEE
(Ron Lemon, DMD. (Chair); Elizabeth Park DDS; Joan Shadler, RDH)

PUBLIC NOTICE:
The Nevada State Board of Dental Examiners may hold board meetings via video conference or telephone conference call. **Due to the Governor's Executive Order in response to the COVID-19 pandemic, the Board office will not be open to the general public for this meeting. The general public is encouraged to participate via teleconference**

Public Comment time is available after roll call (beginning of meeting) and prior to adjournment (end of meeting). Public Comment is limited to three (3) minutes for each individual. You may provide the Board with written comment to be added to the record.

Persons wishing to comment may appear at the scheduled meeting/hearing or may address their comments, data, views, arguments in written form to: Nevada State Board of Dental Examiners, 6010 S. Rainbow Blvd, A-1, Las Vegas, Nevada 89118; FAX number (702) 486-7046; e-mail address nsbde@nsbde.nv.gov. Written submissions should be received by the Board on or before April 22, 2020 in order to make copies available to members and the public.

The Nevada State Board of Dental Examiners may 1) address agenda items out of sequence to accommodate persons appearing before the Board or to aid the efficiency or effectiveness of the meeting; 2) combine items for consideration by the public body; 3) pull or remove items from the agenda at any time. The Board may convene in closed session to consider the character, alleged misconduct, professional competence or physical or mental health of a person. See NRS 241.030. Prior to the commencement and conclusion of a contested case or a quasi-judicial proceeding that may affect the due process rights of an individual the board may refuse to consider public comment. See NRS 233B.126.

Persons/facilities who want to be on the mailing list must submit a written request every six (6) months to the Nevada State Board of Dental Examiners at the address listed in the previous paragraph. With regard to any board meeting or telephone conference, it is possible that an amended agenda will be published adding new items to the original agenda. Amended Nevada notices will be posted in compliance with the Open Meeting Law.

We are pleased to make reasonable accommodations for members of the public who are disabled and wish to attend the meeting. If special arrangements for the meeting are necessary, please notify the Board office, at (702) 486-7044, no later than 48 hours prior to the meeting. Requests for special arrangements made after this time frame cannot be guaranteed.

Pursuant to NRS 241.020(2) you may contact the Board office at (702) 486-7044, to request supporting materials for the public body or you may download the supporting materials for the public body from the Board’s website at http://dental.nv.gov. In addition, the supporting materials for the public body are available at the Board’s office located at 6010 S Rainbow Blvd, Ste. A-1, Las Vegas, Nevada.

Revised 03/2020
Consideration and recommendation regarding request from Nevada Board of Psychological Examiners in support of seeking an amendment of NRS 629.021
Subject: FW. Question about an amendment NRS 629 NBOPE would like to seek

From: Anthony Papa

Sent: Thursday, April 02, 2020 11:35 AM

To: Board of Dental Examiners

Subject: Question about an amendment NRS 629 NBOPE would like to seek

Dear Candice Stratton,

There is an existing statute in the state of Nevada that requires that all recordings of patients that contain clinical material done for any purpose must be maintained as a part of that person's medical record. The Board of Psychological Examiners would like to approach the state legislature to see if recordings of treatment made for the purpose for clinical training could be exempted from his requirement, but given that this statute is for all health care professions, I am writing to see if this requirement is an issue that might impact training in your profession, if the changes we would like to propose might have adverse effects we would not have considered, if there changes to the language of our proposed revisions that would be required to fit all professions, and ultimately if your Board would support this revision at all. I am reaching out to you as the Executive Director of your Board.

Per NRS 629.021 “Health care records” defined, “Health care records” means any reports, notes, orders, photographs, X-rays or other recorded data or information whether maintained in written, electronic or other form which is received or produced by a provider of health care, or any person employed by a provider of health care, and contains information relating to the medical history, examination, diagnosis or treatment of the patient. (https://www.leg.state.nv.us/nrs/NRS-629.html#NRS629Sec021)

A standard practice in the training of future psychologists is that video recordings of psychotherapy sessions are often made, reviewed by training supervisors, and immediately destroyed. Training clinics do not maintain these recordings for a number of reasons. A primary reason being that maintaining records of highly personal, and in the case of mental health issues, potentially highly stigmatizing content that goes beyond what is legally mandated for recording of treatment, increases the potential impact to individuals in the unlikely circumstance of a data breach of a HIPAA-secure server and is also prohibitively expensive to maintain these records for university training clinics which are often cash strapped. As they are created for the purpose of training, these recordings are exempted from need for entry into health care records in vast majority of jurisdictions around the country.

Not making and using these recordings has negative implications for workforce development in Nevada. In discussion with training programs at UNR and UNLV, the Board of Psychological Examiners wild like to see if the Boards of other helping professions would be supportive of seeking an amendment of NRS 629.021 to include language to exempt these recordings forms into entry into health records. Here is an initial draft of this language:

Video/audio recordings of health care treatment made for the purposes of training health care professionals may be exempted from inclusion in the health care record of a patient if:
- The recording is used in the context of an approved training activity related to completion of an accredited education program for the health care profession as defined by the relevant professional boards.
- The patient provides informed consent to allow recording to made and used explicitly for this purpose.
• This exclusion does not exempt health care provider from keeping adequate records related to the medical history, examination, diagnosis or treatment of the patient.
• Recordings that include protected health information or personal identifying information must be maintained in compliance with relevant state and federal law to ensure the privacy and confidentiality of the patient until they are destroyed.

I am glad to discuss and/or fill in the details of this already too long email with you, meet with your full Board, whatever might be required.

Thank you for your time.

Best regards,

Discussion and possible recommendation regarding extension of CPR certification
UPDATED: Interim Guidance on Card Extensions during COVID-19 Outbreak

CPR & Emergency Cardiovascular Care

March 31, 2020

Purpose: To provide additional flexibility for providers, AHA Instructors, and Instructor candidates during the COVID-19 pandemic. NOTE: This guidance on card extensions supersedes the guidance outlined in the March 13, 2020, document, "Interim Guidance on Extensions for AHA Instructor & Provider Cards during COVID-19 Outbreak."

AHA Instructor and Provider Card Extensions

Per the statement regarding further extensions of AHA course completion cards beyond 60 days past the recommended renewal day (in interim guidance released on March 13, 2020), and given the ongoing threat of exposure to COVID-19, with many communities under shelter in place orders to minimize the spread of the disease, the AHA is extending AHA Instructor and Provider Course Completion Cards for 120 days beyond their recommended renewal date, beginning with cards that expire in March 2020.

Please see the AHA’s guidance below, and disseminate to anyone who has a business need for this information (e.g., students, employers, medical or safety regulators, etc.).

For Instructor Cards expiring beginning in March 2020:

- AHA Instructor cards will be valid for 120 days beyond their recommended renewal date.
- Instructor candidates will also have 10 months from the completion of their Instructor course to complete monitoring.
- Management of this extension, and any record-keeping, will be the responsibility of the Training Center.

For AHA Provider Cards expiring beginning in March 2020:

- AHA Provider Cards will be valid for 120 days beyond their recommended renewal date.
- Management of this extension, and any record-keeping, will be the responsibility of the Training Center.

AHA Policy on Expired Cards for Update/Renewal Courses:

- Over the next 120 days, for providers whose cards have expired due to inability to complete training during the COVID-19 outbreak, the AHA will allow Instructors to provide remediation during update courses.
