

# NEVADA STATE BOARD of DENTAL EXAMINERS

BOARD TELECONFERENCE MEETING

WEDNESDAY, FEBRUARY 14<sup>TH</sup>, 2024

6:00 P.M.

**PUBLIC BOOK**

# Nevada State Board of Dental Examiners

2651 N. Green Valley Pkwy, Ste. 104 • Henderson, NV 89014 • (702) 486-7044 • (800) DDS-EXAM • Fax (702) 486-7046

---

## **PUBLIC MEETING NOTICE & BOARD MEETING AGENDA**

### **Meeting Date & Time**

Wednesday, February 14<sup>th</sup>, 2024  
6:00 P.M.

### **Meeting Location:**

Nevada State Board of Dental Examiners  
2651 N. Green Valley Pkwy., Suite 104  
Henderson, NV 89014

### **Video Conferencing / Teleconferencing Available**

**To access by phone**, call Zoom teleconference Phone Number: (669) 900 6833

**To access by video webinar**, visit [www.zoom.com](http://www.zoom.com) or use the Zoom app

Zoom Webinar/Meeting ID#: **834 1391 0743**

Zoom Webinar/Meeting Passcode: **419765**

### **PUBLIC NOTICE:**

**Public Comment by pre-submitted email/written form and Live Public Comment by teleconference** is available after roll call (beginning of meeting and prior to adjournment (end of meeting)). Live Public Comment is limited to three (3) minutes for each individual.

Members of the public may submit public comment in written form to: **Nevada State Board of Dental Examiners, 2651 N. Green Valley Pkwy, Ste. 104, Henderson, NV 89014; FAX number (702) 486-7046; e-mail address [nsbde@dental.nv.gov](mailto:nsbde@dental.nv.gov)**. Written submissions received by the Board on or before **Tuesday, February 13, 2024, by 4:00 p.m.** may be entered into the record during the meeting. Any other written public comment submissions received prior to the adjournment of the meeting will be included in the permanent record.

The Nevada State Board of Dental Examiners may 1) address agenda items out of sequence to accommodate persons appearing before the Board or to aid the efficiency or effectiveness of the meeting; 2) combine items for consideration by the public body; 3) pull or remove items from the agenda at any time. The Board may convene in closed session to consider the character, alleged misconduct, professional competence or physical or mental health of a person. See NRS 241.030. Prior to the commencement and conclusion of a contested case or a quasi-judicial proceeding that may affect the due process rights of an individual the board may refuse to consider public comment. See NRS 233B.126.

Persons/facilities who want to be on the mailing list must submit a written request every six (6) months to the Nevada State Board of Dental Examiners at the address listed in the previous paragraph. With regard to any board meeting or telephone conference, it is possible that an amended agenda will be published adding new items to the original agenda. Amended Nevada notices will be posted in compliance with the Open Meeting Law.

We are pleased to make reasonable accommodations for members of the public who are disabled and wish to attend the meeting. If special arrangements for the meeting are necessary, please notify the Board, at (702) 486-7044, no later than 48 hours prior to the meeting. Requests for special arrangements made after this time frame cannot be guaranteed.

Pursuant to NRS 241.020(2) you may contact at (702) 486-7044, to request supporting materials for the public body or you may download the supporting materials for the public body from the Board's website at <http://dental.nv.gov> In addition, the supporting materials for the public body are available at the Board's office located at 2651 N. Green Valley Pkwy, Ste. 104, Henderson, NV 89014.

---

**Note:** Asterisks (\*) "**For Possible Action**" denotes items on which the Board may take action.

**Note:** Action by the Board on an item may be to approve, deny, amend, or tabled.

1. **Call to Order**

- Roll call/Quorum

2. **Public Comment (Live public comment by teleconference and pre-submitted email/written form):**

The public comment period is limited to matters specifically noticed on the agenda. No action may be taken upon the matter raised during public comment unless the matter itself has been specifically included on the agenda as an action item. Comments by the public may be limited to three (3) minutes as a reasonable time, place and manner restriction, but may not be limited based upon viewpoint. The Chairperson may allow additional time at his/her discretion.

Members of the public may submit public comment via email to [nsbde@dental.nv.gov](mailto:nsbde@dental.nv.gov), or by mailing/faxing messages to the Board office. Written submissions received by the Board on or before **Tuesday, February 13, 2024, by 4:00 p.m.**, may be entered into the record during the meeting. Any other written public comment submissions received prior to the adjournment of the meeting will be included in the permanent record.

In accordance with Attorney General Opinion No. 00-047, as restated in the Attorney General's Open Meeting Law Manual, the Chair may prohibit comment if the content of that comment is a topic that is not relevant to, or within the authority of, the Nevada State Board of Dental Examiners, or if the content is willfully disruptive of the meeting by being irrelevant, repetitious, slanderous, offensive, inflammatory, irrational, or amounting to personal attacks or interfering with the rights of other speakers.

\*3. **Election of Officers – NRS 631.160** (For Possible Action)

\*a. **President** (For Possible Action)

\*b. **Secretary Treasurer** (For Possible Action)

\*4. **President's Report:** (For Possible Action)

\*a. **Request to remove agenda item(s)** (For Possible Action)

\*b. **Approve Agenda** (For Possible Action)

\*5. **Secretary – Treasurer's Report:** (For Possible Action)

\*a. **Approval/Rejection of Minutes** (For Possible Action)

- (1) Board Meeting – 12/08/2023

\*6. **General Counsel's Report:** (For Possible Action)

a. **Legal Actions/Litigation Update** (For Informational Purposes Only)

b. **Regulatory Update** (For Informational Purposes Only)

\*c. **Review Panel – NRS 631.3635**

- (1) Discussion and Consideration of Proposed Findings and Recommendations for Matters that have Been Recommended for Remand by the Review Panel, and Possible Approval/Rejection of Same by the Board – NRS 631.3635

- (i) Review Panel 1
- (ii) Review Panel 2
- (iii) Review Panel 3

\*d. **Consideration, Review, and Possible Approval/Rejection of Stipulation Agreements**

**NRS 631.3635; NRS 622A.170; NRS 622.330** (For Possible Action)

- (1) Young Dill, DMD
- (2) Gregory Greenwood, DMD
- (3) Nicholas Maffeo, DMD
- (4) Mark Aranbasich, DDS

**\*7. Old Business:** (For Possible Action)

- \*a. Discussion and Consideration of Potential Recommendations of the Anesthesia Committee to Full Board Regarding Possible Revisions to Regulations Governing Inspections/Evaluations for Issuing and/or Renewing Anesthesia Permits and Required Maintenance of Emergency Drugs NRS 631.190, NRS 631.265, NAC 631.2227 and NAC 631.2231** (For Possible Action)

**\*8. New Business:** (For Possible Action)

- \*a. Approval/Rejection of Permanent Anesthesia Permit – NAC 631.2235** (For Possible Action)

- (1) John Kersey, DDS – Moderate Sedation
- (2) Megan Tuffeland, DMD – Moderate Sedation
- (3) David E Somoza-Valle, DMD – Moderate Sedation

- \*b. Approval/Rejection of 90-day Extension of Temporary Anesthesia Permit – NAC 631.2254(2)** (For Possible Action)

- (1) Nathan M Antoine, DMD – Moderate Sedation

- \*c. Consideration and Possible Approval/Rejection of the Continuing Education Provider Course Application NAC 631.173** (For Possible Action)

- (1) PRP/PRF Training (Therapeutic & Aesthetic Botox-Dermal Fillers-TMJ-PRP in Dentistry) – 4 units) – Advanced Dental Institute
- (2) ASIST: Applied Suicide Intervention Skills Training – (15 units) – Richard Egan
- (3) Preservation and Regeneration of Periradicular Structure in Endodontic Microsurgery – (3 units) – David M Reeves, DDS
- (4) Diode Lasers – Standard Proficiency Course – (6 units) – Midwest Dental
- (5) Practice Leadership Conference – (3 units) – Nicole Bui-Fong, DDS

- \*d. Discussion, Consideration, and Possible Recommendation to the Board to Approve or Deny The Vesper Institute as a Moderate Sedation Board Approved Course of Study and to Specifically Address Whether Such Course is for Patients 13 years of Age or Older NRS 631.190 & NAC 631.2213** (For possible action.)

- \*e. Discussion, Consideration, and Possible Recommendation to the Board Regarding the Hiring of the Following as Part-Time On-Site Evaluator/Inspector Employees NRS 631.190, NAC 631.2221** (For Possible Action)

- (1) Lee E Roundy, DMD – Pediatric Moderate Sedation
- (2) Jeff E Moxley, DDS – General Anesthesia

- \*f. Approval/Rejection of Temporary Anesthesia Permit NAC 631.2254** (For Possible Action)

Creed S Haymond, DDS – General Anesthesia

- \*9. Public Comment (Live public comment by teleconference):** This public comment period is for any matter that is within the jurisdiction of the public body. No action may be taken upon the matter raised during public comment unless the matter itself has been specifically included on the agenda as an action item. Comments by the public may be limited to three (3) minutes as a reasonable time, place and manner restriction but may not be limited based upon viewpoint. The Chairperson may allow additional time at his/her discretion.

Members of the public may submit public comment via email to [nsbde@dental.nv.gov](mailto:nsbde@dental.nv.gov), or by mailing/faxing messages to the Board office. Written submissions received by the Board on or before **Tuesday, February 13, 2024, by 4:00 p.m.** may be entered into the record during the meeting. Any other written public comment submissions received prior to the adjournment of the meeting will be included in the permanent record.

In accordance with Attorney General Opinion No. 00-047, as restated in the Attorney General's Open Meeting Law Manual, the Chair may prohibit comment if the content of that comment is a topic that is not relevant to, or within the authority of, the Nevada State Board of Dental Examiners, or if the content is willfully disruptive of the meeting by being irrelevant, repetitious, slanderous, offensive, inflammatory, irrational, or amounting to personal attacks or interfering with the rights of speakers.

**Approval/Rejection on Minutes**

**Board Meeting**

**12-08-23**

**Agenda Item 6(c)(1):**

**Discussion and Consideration of Proposed Findings  
and Recommendations for Matters that have Been  
Recommended For Remand by the Review Panel,  
and Possible Approval/Rejection of Same By  
The Board  
NRS 631.3635**

**NRS 631.3635** Appointment of panel to review investigation or informal hearing; members; requirements of review; findings and recommendation.

1. The Board shall appoint a panel to review an investigation or informal hearing conducted pursuant to [NRS 631.363](#). Such a panel must consist of:
  - (a) If the subject of the investigation or informal hearing is a holder of a license to practice dental hygiene, one member of the Board who is a holder of a license to practice dentistry, one member of the Board who is a holder of a license to practice dental hygiene and one holder of a license to practice dental hygiene who is not a member of the Board and is not the subject of the investigation or informal hearing.
  - (b) If the subject of the investigation or informal hearing is a holder of a license to practice dentistry or any other person not described in paragraph (a), one member of the Board who is a holder of a license to practice dentistry, one member of the Board who is a holder of a license to practice dental hygiene and one holder of a license to practice dentistry who is not a member of the Board and is not the subject of the investigation or informal hearing.
2. A review panel appointed pursuant to subsection 1 shall, in conducting a review of an investigation or informal hearing conducted pursuant to [NRS 631.363](#), review and consider, without limitation:
  - (a) All files and records collected or produced by the investigator;
  - (b) Any written findings of fact and conclusions prepared by the investigator; and
  - (c) Any other information deemed necessary by the review panel.
3. The investigator who conducted the investigation or informal hearing pursuant to [NRS 631.363](#) shall not participate in a review conducted pursuant to subsection 1.
4. Before the Board takes any action or makes any disposition relating to a complaint, the review panel appointed pursuant to subsection 1 to conduct a review of the investigation or informal hearing relating to the complaint shall present to the Board its findings and recommendation relating to the investigation or informal hearing, and the Board shall review and consider those findings and recommendations.
5. Meetings held by a review panel appointed pursuant to subsection 1 are not subject to the provisions of [chapter 241](#) of NRS.

(Added to NRS by [2017, 988](#))

*(For Possible Action)*

**NRS 631.3635** Appointment of panel to review investigation or informal hearing; members; requirements of review; findings and recommendation.

1. The Board shall appoint a panel to review an investigation or informal hearing conducted pursuant to [NRS 631.363](#). Such a panel must consist of:

(a) If the subject of the investigation or informal hearing is a holder of a license to practice dental hygiene, one member of the Board who is a holder of a license to practice dentistry, one member of the Board who is a holder of a license to practice dental hygiene and one holder of a license to practice dental hygiene who is not a member of the Board and is not the subject of the investigation or informal hearing.

(b) If the subject of the investigation or informal hearing is a holder of a license to practice dentistry or any other person not described in paragraph (a), one member of the Board who is a holder of a license to practice dentistry, one member of the Board who is a holder of a license to practice dental hygiene and one holder of a license to practice dentistry who is not a member of the Board and is not the subject of the investigation or informal hearing.

2. A review panel appointed pursuant to subsection 1 shall, in conducting a review of an investigation or informal hearing conducted pursuant to [NRS 631.363](#), review and consider, without limitation:

(a) All files and records collected or produced by the investigator;

(b) Any written findings of fact and conclusions prepared by the investigator; and

(c) Any other information deemed necessary by the review panel.

3. The investigator who conducted the investigation or informal hearing pursuant to [NRS 631.363](#) shall not participate in a review conducted pursuant to subsection 1.

4. Before the Board takes any action or makes any disposition relating to a complaint, the review panel appointed pursuant to subsection 1 to conduct a review of the investigation or informal hearing relating to the complaint shall present to the Board its findings and recommendation relating to the investigation or informal hearing, and the Board shall review and consider those findings and recommendations.

5. Meetings held by a review panel appointed pursuant to subsection 1 are not subject to the provisions of [chapter 241](#) of NRS.

(Added to NRS by [2017, 988](#))

**NRS 622A.170** Informal dispositions; consent and settlement agreements; designation of hearing panels.

1. The provisions of this chapter do not affect or limit the authority of a regulatory body, at any stage of a contested case, to make an informal disposition of the contested case pursuant to subsection 5 of [NRS 233B.121](#) or to enter into a consent or settlement agreement approved by the regulatory body pursuant to [NRS 622.330](#).

2. The provisions of this chapter do not affect or limit the authority of a regulatory body to designate a panel of its members to hear a contested case pursuant to this chapter.

(Added to NRS by [2005, 744](#))

**NRS 622.330** Consent and settlement agreements: Conditions for entry; deemed public records; exceptions.

1. Except as otherwise provided in this section, a regulatory body may not enter into a consent or settlement agreement with a person who has allegedly committed a violation of any provision of this title which the regulatory body has the authority to enforce, any regulation adopted pursuant thereto or any order of the regulatory body, unless the regulatory body discusses and approves the terms of the agreement in a public meeting.

2. A regulatory body that consists of one natural person may enter into a consent or settlement agreement without complying with the provisions of subsection 1 if:

(a) The regulatory body posts notice in accordance with the requirements for notice for a meeting held pursuant to [chapter 241](#) of NRS and the notice states that:

(1) The regulatory body intends to resolve the alleged violation by entering into a consent or settlement agreement with the person who allegedly committed the violation; and

(2) For the limited time set forth in the notice, any person may request that the regulatory body conduct a public meeting to discuss the terms of the consent or settlement agreement by submitting a written request for such a meeting to the regulatory body within the time prescribed in the notice; and

(b) At the expiration of the time prescribed in the notice, the regulatory body has not received any requests for a public meeting regarding the consent or settlement agreement.

3. If a regulatory body enters into a consent or settlement agreement that is subject to the provisions of this section, the agreement is a public record.

4. The provisions of this section do not apply to a consent or settlement agreement between a regulatory body and a licensee that provides for the licensee to enter a diversionary program for the treatment of an alcohol or other substance use disorder.

## **Agenda Item 7:**

### **Old Business**

(For Possible Action)

**Agenda Item 7(a):**

**Discussion, Consideration & Possible  
Recommendations of the Anesthesia Committee to Full  
Board Regarding Possible Revisions to Regulations  
Governing Inspections/Evaluations for Issuing and/or  
Renewing Anesthesia Permits and Required  
Maintenance of Emergency Drugs  
NRS 631.190, NRS 631.265, NAC 631.2227  
and NAC 631.2231  
(*For Possible Action*)**

**NRS 631.190** Powers and duties. [Effective January 1, 2020.] In addition to the powers and duties provided in this chapter, the Board shall:

1. Adopt rules and regulations necessary to carry out the provisions of this chapter.
2. Appoint such committees, review panels, examiners, officers, employees, agents, attorneys, investigators and other professional consultants and define their duties and incur such expense as it may deem proper or necessary to carry out the provisions of this chapter, the expense to be paid as provided in this chapter.
3. Fix the time and place for and conduct examinations for the granting of licenses to practice dentistry, dental hygiene and dental therapy.
4. Examine applicants for licenses to practice dentistry, dental hygiene and dental therapy.
5. Collect and apply fees as provided in this chapter.
6. Keep a register of all dentists, dental hygienists and dental therapists licensed in this State, together with their addresses, license numbers and renewal certificate numbers.
7. Have and use a common seal.
8. Keep such records as may be necessary to report the acts and proceedings of the Board. Except as otherwise provided in [NRS 631.368](#), the records must be open to public inspection.
9. Maintain offices in as many localities in the State as it finds necessary to carry out the provisions of this chapter.
10. Have discretion to examine work authorizations in dental offices or dental laboratories.

[Part 4:152:1951; A [1953, 363](#)] — (NRS A [1963, 150](#); [1967, 865](#); [1993, 2743](#); [2009, 3002](#); [2017, 989, 2848](#); [2019, 3205](#), effective January 1, 2020)

**NRS 631.265** Permit to administer or supervise administration of general anesthesia, minimal sedation, moderate sedation or deep sedation; regulations.

1. No licensed dentist or person who holds a restricted license issued pursuant to NRS 631.275 may administer or supervise directly the administration of general anesthesia, minimal sedation, moderate sedation or deep sedation to dental patients unless the dentist or person has been issued a permit authorizing him or her to do so by the Board.

2. The Board may issue a permit authorizing a licensed dentist or person who holds a restricted license issued pursuant to NRS 631.275 to administer or supervise directly the administration of general anesthesia, minimal sedation, moderate sedation or deep sedation to dental patients under such standards, conditions and other requirements as the Board shall by regulation prescribe.

(Added to NRS by 1983, 278; A 1989, 1740; 2001, 2692; 2015, 3876)

**NAC 631.2227 Inspections and evaluations: Minimum standards for physical facilities and equipment.** ([NRS 631.190](#), [631.265](#)) A dentist's office inspected or evaluated for the issuance or renewal of a general anesthesia permit, moderate sedation permit or certificate of site approval must meet the following minimum standards with regard to physical facilities and equipment:

1. The operating theater must be large enough to accommodate the patient adequately on a table or in a dental chair and to allow an operating team consisting of at least three persons to move freely about the patient.

2. The operating table or dental chair must:

(a) Allow the patient to be placed in a position such that the operating team can maintain the airway;

(b) Allow the operating team to alter the patient's position quickly in an emergency; and

(c) Provide a firm platform for the management of cardiopulmonary resuscitation.

3. The lighting system must be adequate to allow an evaluation of the patient's skin and mucosal color. An alternate lighting system must derive its power from batteries and must be sufficiently intense to allow completion of any procedure underway at the time of a general power failure.

4. Suction equipment must be available that allows aspiration of the oral and pharyngeal cavities. An alternate suction device that will function effectively during a general power failure must be available.

5. A system for delivering oxygen must have adequate full-face masks and appropriate connectors, and be capable of delivering oxygen to the patient under positive pressure. An adequate alternate system for delivering oxygen is also required.

6. A recovery area must be provided that has available oxygen, adequate lighting, suction and electrical outlets. The recovery area may be the operating theater. A member of the staff must be able to observe the patient at all times during the recovery.

7. Except as otherwise provided in this subsection, ancillary equipment must include:

(a) A laryngoscope complete with an adequate selection of blades and spare batteries and bulbs;

(b) Endotracheal tubes and appropriate connectors;

(c) Oral airways;

(d) A tonsillar or pharyngeal suction tip adaptable to all office suction outlets;

(e) An endotracheal tube type forcep;

(f) A sphygmomanometer and stethoscope;

(g) An electrocardioscope and defibrillator;

(h) Adequate equipment for the establishment of an intravenous infusion;

(i) A pulse oximeter; and

(j) A capnography monitor.

↪ Except as otherwise provided in subsection 8, a dentist's office inspected or evaluated for the issuance or renewal of a moderate sedation permit is not required to have the ancillary equipment described in paragraphs (a), (b), (e), (g) and (j).

8. In addition to the requirements of subsection 7, if general anesthesia, deep sedation or moderate sedation is administered at the dentist's office to a patient 12 years of age or younger, the following equipment must be available at the dentist's office:

- (a) A pediatric size ambu bag and masks;
- (b) Pediatric blood pressure cuffs;
- (c) A laryngoscope complete with an adequate selection of blades for use on pediatric patients;
- (d) Appropriately sized endotracheal tubes and appropriate connectors;
- (e) An electrocardioscope and defibrillator;
- (f) Pediatric pads for use with an electrocardioscope and defibrillator; and
- (g) Small oral and nasal airways.

(Added to NAC by Bd. of Dental Exam'rs, eff. 10-21-83; A by R005-99, 9-7-2000; R004-17, 5-16-2018)

**NAC 631.2231 Inspections and evaluations: Maintenance of emergency drugs. (NRS 631.190, 631.265)**

1. Except as otherwise provided in this section, a dentist's office inspected or evaluated for the issuance or renewal of a general anesthesia permit, moderate sedation permit or certificate of site approval must maintain emergency drugs of the following categories which must be immediately available for use on the patient:

- (a) Vasopressor;
- (b) Corticosteroid;
- (c) Bronchodilator;
- (d) Muscle relaxant;
- (e) Intravenous medication for the treatment of cardiopulmonary arrest;
- (f) Appropriate drug antagonist;
- (g) Antihistaminic;
- (h) Anticholinergic;
- (i) Antiarrhythmic;
- (j) Coronary artery vasodilator;
- (k) Anti-hypertensive; and
- (l) Anti-convulsive.

2. In addition to the requirements of subsection 1, if general anesthesia, deep sedation or moderate sedation is administered at a dentist's office to a patient 12 years of age or younger, the dentist's office must maintain the following emergency drugs:

- (a) Appropriate dosages of epinephrine or a pediatric epinephrine auto-injector;
- (b) Adenosine;
- (c) Aminodarone;
- (d) Magnesium sulfate; and
- (e) Procainamide.

3. Except as otherwise provided in subsection 2, a dentist's office that is inspected or evaluated for the issuance or renewal of a moderate sedation permit is not required to maintain the emergency drugs described in paragraphs (d), (e), (i) and (k) of subsection 1.

(Added to NAC by Bd. of Dental Exam'rs, eff. 10-21-83; A by R005-99, 9-7-2000; R004-17, 5-16-2018)

NAC 631.2227 Inspections and evaluations: Minimum standards for physical facilities and equipment. ([NRS 631.190](#), [631.265](#)) A dentist's office inspected or evaluated for the issuance or renewal of a general anesthesia permit, moderate sedation permit or certificate of site approval must meet the following minimum standards with regard to physical facilities and equipment:

1. The operating theater must be large enough to accommodate the patient adequately on a table or in a dental chair and to allow an operating team consisting of at least three persons to move freely about the patient.

2. The operating table or dental chair must:

(a) Allow the patient to be placed in a position such that the operating team can maintain the airway;

(b) Allow the operating team to alter the patient's position quickly in an emergency; and

(c) Provide a firm platform for the management of cardiopulmonary resuscitation.

3. The lighting system must be adequate to allow an evaluation of the patient's skin and mucosal color. An alternate lighting system must derive its power from batteries and must be sufficiently intense to allow completion of any procedure underway at the time of a general power failure.

4. Suction equipment must be available that allows aspiration of the oral and pharyngeal cavities. An alternate suction device that will function effectively during a general power failure must be available.

5. A system for delivering oxygen must have adequate full-face masks and appropriate connectors, and be capable of delivering oxygen to the patient under positive pressure. An adequate alternate system for delivering oxygen is also required.

6. A recovery area must be provided that has available oxygen, adequate lighting, suction and electrical outlets. The recovery area may be the operating theater. A member of the staff must be able to observe the patient at all times during the recovery.

7. Except as otherwise provided in this subsection, ancillary equipment must include:

(a) A laryngoscope complete with an adequate selection of blades and spare batteries and bulbs;

(b) Endotracheal tubes and appropriate connectors;

(c) Oral airways;

(d) A tonsillar or pharyngeal suction tip adaptable to all office suction outlets;

**NAC 631.2219 Inspection and evaluation; renewal of permit; reevaluation of credentials. ([NRS 631.190](#), [631.265](#))**

1. The Board will require an inspection and evaluation of the facility, equipment, personnel, records of patients and the procedures used by every dentist who seeks or holds a general anesthesia permit or moderate sedation permit, and of the dentist himself or herself, before issuing such an original permit to the dentist, and at least once in every 5-year period thereafter.

2. The Board will renew general anesthesia permits and moderate sedation permits annually or biennially, as applicable, based on the renewal period set forth in [NRS 631.330](#) for the type of license held by the holder of the permit, unless the holder is informed in writing, 60 days before the date for renewal, that a reevaluation of his or her credentials is required. In determining whether reevaluation is necessary, the Board will consider, among other factors, complaints by patients and reports of adverse occurrences. A reevaluation will, if appropriate, include an inspection of the facility, equipment, personnel, records of patients and the procedures used by the holder, and an examination of his or her qualifications.

(Added to NAC by Bd. of Dental Exam'rs, eff. 10-21-83; A 7-30-84; R005-99, 9-7-2000; R158-08, 12-17-2008; R004-17, 5-16-2018)

- (e) An endotracheal tube type forcep;
- (f) A sphygmomanometer and stethoscope;
- (g) An electrocardioscope and defibrillator;
- (h) Adequate equipment for the establishment of an intravenous infusion;
- (i) A pulse oximeter; and
- (j) A capnography monitor.

➡ Except as otherwise provided in subsection 8, a dentist's office inspected or evaluated for the issuance or renewal of a moderate sedation permit is not required to have the ancillary equipment described in paragraphs (a), (b), (e), (g) and (j).

8. In addition to the requirements of subsection 7, if general anesthesia, deep sedation or moderate sedation is administered at the dentist's office to a patient 12 years of age or younger, the following equipment must be available at the dentist's office:

- (a) A pediatric size ambu bag and masks;
- (b) Pediatric blood pressure cuffs;
- (c) A laryngoscope complete with an adequate selection of blades for use on pediatric patients;
- (d) Appropriately sized endotracheal tubes and appropriate connectors;
- (e) An electrocardioscope and defibrillator;
- (f) Pediatric pads for use with an electrocardioscope and defibrillator; and
- (g) Small oral and nasal airways.

(Added to NAC by Bd. of Dental Exam'rs, eff. 10-21-83; A by R005-99, 9-7-2000; R004-17, 5-16-2018)

**Agenda Item 8:**

**New Business:**  
*(For Possible Action)*

**Agenda Item 8(a):**

**Approval/Rejection of Permanent Anesthesia Permit**  
**NAC 631.2235**  
*(For Possible Action)*

**NAC 631.2235** Inspections and evaluations: Grading; report of recommendation of evaluator; issuance of permit for passing; failure to pass; request for reevaluation; issuance of order for summary suspension. ([NRS 631.190](#), [631.265](#))

1. The persons performing an inspection or evaluation of a dentist and his or her office for the issuance or renewal of a general anesthesia permit or moderate sedation permit shall grade the dentist as passing or failing to meet the requirements set forth in [NAC 631.2219](#) to [631.2231](#), inclusive. Within 72 hours after completing the inspection or evaluation, each evaluator shall report his or her recommendation for passing or failing to the Executive Director, setting forth the details supporting his or her conclusion.

2. If the dentist meets the requirements set forth in [NAC 631.2219](#) to [631.2231](#), inclusive, the Board will issue the general anesthesia permit or moderate sedation permit, as applicable.

3. If the dentist does not meet the requirements set forth in [NAC 631.2219](#) to [631.2231](#), inclusive, the Executive Director shall issue a written notice to the dentist that identifies the reasons he or she failed the inspection or evaluation.

4. A dentist who has received a notice of failure from the Board pursuant to subsection 3:

(a) Must cease the administration of any general anesthesia, deep sedation or moderate sedation until the dentist has obtained the general anesthesia permit or moderate sedation permit, as applicable; and

(b) May, within 15 days after receiving the notice, request the Board in writing for a reevaluation. The request for a reevaluation must state specific grounds supporting it.

5. If the reevaluation is granted by the Board, it will be conducted by different persons in the manner set forth by [NAC 631.2219](#) to [631.2231](#), inclusive, for an original evaluation.

6. No dentist who has received a notice of failing an inspection or evaluation from the Board may request more than one reevaluation within any period of 12 months.

7. Pursuant to subsection 3 of [NRS 233B.127](#), if an inspection or evaluation of a dentist or his or her office indicates that the public health, safety or welfare imperatively requires emergency action, the President of the Board may, without any further action by the Board, issue an order of summary suspension of the license of the dentist pending proceedings for revocation or other action. An order of summary suspension issued by the President of the Board must contain findings of the exigent circumstances which warrant the issuance of the order of summary suspension. The President of the Board shall not participate in any further proceedings relating to the order.

(Added to NAC by Bd. of Dental Exam'rs, eff. 10-21-83; A by R005-99, 9-7-2000; R004-17, 5-16-2018)

I hereby make application for a Pediatric Moderate Sedation Permit to administer Moderate Sedation to pediatric patients from the Nevada State Board of Dental Examiners. I understand that if this permit is issued, I am authorized to administer to a patient Moderate Sedation ONLY to pediatric patients at the address listed above. If I wish to administer moderate sedation to pediatric patients at another location, I understand that each site must be inspected and issued a "Pediatric Moderate Sedation Site Permit" and/or a "Moderate Sedation Site Permit" by the Board prior to the administration of moderate sedation to pediatric patients.

I understand that this permit does NOT allow for the administration of deep sedation or general anesthesia by me, a physician, a nurse anesthetist, or any other person. I have read and I am familiar with the provision and requirements of NRS 631 and NAC 631 regarding the administration of moderate sedation to pediatric patients.

I, hereby acknowledge the information contained on this application is true and correct, and I further acknowledge any omissions, inaccuracies, or misrepresentations of information on this application are grounds for the revocation of a permit which may have been obtained through this application. It is understood and agreed that the title of all certificates shall remain in the Nevada State Board of Dental Examiners and shall be surrendered by order of said Board.

**Approval/Rejection of 90-Day Extension of Temporary  
Anesthesia Permit  
NAC 631.2254(2)  
(*For Possible Action*)**

NAC 631.2254 Temporary permits. ([NRS 631.190](#), [631.265](#))

1. The Board may grant a temporary permit to administer general anesthesia and deep sedation or a temporary permit to administer moderate sedation to an applicant who meets the qualifications for a permit to administer that type of anesthesia or sedation pursuant to [NAC 631.2213](#).

2. A temporary permit is valid for not more than 90 days, but the Board may, in any case it deems appropriate, grant a 90-day extension of the permit.

3. The Board may require the holder of a temporary permit to pass an on-site inspection as a condition of retaining the permit. If the holder fails the inspection, his or her permit will be revoked. In case of revocation, the holder of a temporary permit may apply to be reinspected in accordance with the procedures set forth in [NAC 631.2235](#).

**Agenda Item 8(c):**

**Consideration and Possible Approval/Rejection of the  
Continuing Education Provider Course Application**

**NAC 631.173**

*(For Possible Action)*

**NAC 631.173 Continuing education: Required hours; types of courses and activities; approval of provider or instructor. ([NRS 631.190](#), [631.342](#))**

1. Each dentist licensed to practice in this State must annually complete at least 20 hours of instruction in approved courses of continuing education or biennially complete at least 40 hours of instruction in approved courses of continuing education, as applicable, based on the renewal period set forth in [NRS 631.330](#) for the type of license held by the dentist. Hours of instruction may not be transferred or carried over from one licensing period to another.

2. Each dental hygienist licensed to practice in this State must annually complete at least 15 hours of instruction in approved courses of continuing education or biennially complete at least 30 hours of instruction in approved courses of continuing education, as applicable, based on the renewal period set forth in [NRS 631.330](#) for the type of license held by the dental hygienist. Hours of instruction may not be transferred or carried over from one licensing period to another.

3. In addition to the hours of instruction prescribed in subsections 1 and 2, each dentist and dental hygienist must maintain current certification in administering cardiopulmonary resuscitation or another medically acceptable means of maintaining basic bodily functions which support life. Any course taken pursuant to this subsection must be taught by a certified instructor.

4. Any provider of or instructor for a course in continuing education relating to the practice of dentistry or dental hygiene which meets the requirements of this section must be approved by the Board, unless the course is for training in cardiopulmonary resuscitation or is approved by:

- (a) The American Dental Association or the societies which are a part of it;
- (b) The American Dental Hygienists' Association or the societies which are a part of it;
- (c) The Academy of General Dentistry;
- (d) Any nationally recognized association of dental or medical specialists;
- (e) Any university, college or community college, whether located in or out of Nevada; or
- (f) Any hospital accredited by The Joint Commission.

5. To be approved as a provider of a course in continuing education, the instructor of the course must complete a form provided by the Board and submit it to the Board for review by a committee appointed by the Board not later than 45 days before the beginning date of the course. Upon receipt of the form, the committee shall, within 10 days after receiving the form, approve or disapprove the application and inform the applicant of its decision.

6. Study by group may be approved for continuing education if the organizer of the group complies with the requirements of subsection 5 and furnishes the Board with a complete list of all members of the group, a synopsis of the subject to be studied, the time, place and duration of the meetings of the group, and the method by which attendance is recorded and authenticated.

7. Credit may be allowed for attendance at a meeting or a convention of a dental and dental hygiene society.

8. Credit may be allowed for courses completed via home study, on-line study, self-study or journal study which are taught through correspondence, webinar, compact disc or digital video disc.

9. Credit may be allowed for dental and dental hygiene services provided on a voluntary basis to nonprofit agencies and organizations approved by the Board.

(Added to NAC by Bd. of Dental Exam'rs, eff. 9-16-85; A 12-15-87; 9-6-96; R231-03, 5-25-2004; R063-05, 12-29-2005; R159-08, 4-23-2009; R020-14, 6-23-2014)

**Agenda Item 8(c)(1):**

**PRP/PRF Training (Therapeutic & Aesthetic Botox-  
Dermal Fillers-TMJ-PRP in Dentistry)  
- (4 units) - Advanced Dental Institute**

Course Title: "Therapeutic & Aesthetic Botox-Dermal Fillers-TMJ-PRP in Dentistry" 28 ceu"

Course Description:

Addition of 4 ceu      PRP/PRF Training

Learning Objectives:

See Attached Course Description and Outline

<https://advanceddentalce.org/therapeutic-botox/>

Outline of Course:

Thoroughly understand and become proficient in the following areas:

1. Learn about the specific types of wrinkles, tissue damage, aesthetic enhancements, and pain areas that can be improved using available PRP technology and appropriate injection techniques.
2. Understand the various FDA-approved protocols associated with PRP/PRF therapy, including recommended indications, dosing, areas for treatment, in combination with other tissue augmentation therapies.
3. Acquire the technical skill to perform the various types of injections for the face, neck, décolleté, and hands.
4. Understand treatment pros and cons and learn when to use PRP/PRF therapy with your patients.

## **Hands-On and Didactic Training in Medical and Aesthetic Applications for PRP and PRF 4 ceu**

PRP treatment can be the ideal complement to other aesthetic injectable procedures, including [Botulinum Toxin-A](#) and [dermal fillers](#).

During a PRP procedure, the patient's blood is separated via a variety of techniques, which extract a concentration of autologous platelets. When activated, these platelets release adhesive glycoproteins as well as growth factors, which form a fibrin mesh beneath the tissue.

The growth factors that are released when the concentrated autologous platelets are activated in the soft tissue include:

- Connective tissue growth factor
- Transforming growth factor beta (TGF- $\beta$ )
- Insulin-like growth factor - I & II (ILGF)
- Epidermal growth factor (EGF)
- Interleukin-8
- Vascular endothelial growth factor (VEGF)
- Keratinocyte growth factor
- Fibroblast growth factor

When these growth factors and proteins bind with the cellular receptors of skin tissue at the injection point, they trigger a variety of inter cellular events that help mediate:

- Production of extracellular matrix proteins
- Migration of stem cells to injection area
- Angiogenesis
- New cell proliferation

This growth, as well as tissue repair, will continue up to five weeks after the patient receives injections. This results in the promotion of local tissue growth and permanent repair of damaged tissue.

This comprehensive course will cover the component factors of platelet-rich plasma as well as the two FDA-approved PRP/PRF preparation processes and re-injection techniques and protocols.

Clinically, PRP has been used by oral surgeons, orthopedic surgeons, and plastic surgeons for over 15 years. Platelet-rich plasma procedures have also received considerable attention in the popular media because of their use in treating sports injuries in professional athletes.

**Advanced Dental Institute** has included this **PRP/PRF** Training into it's Therapeutic & Aesthetic Botox-Dermal Fillers-TMJ course. This training will provides hands-on training through live demonstrations on patients for aesthetic uses. 28 ceu

**Thoroughly understand and become proficient in the following areas:**

1. **Learn about the specific types of wrinkles, tissue damage, aesthetic enhancements, and pain areas** that can be improved using available PRP technology and appropriate injection techniques.
2. **Understand the various FDA-approved protocols** associated with PRP/PRF therapy, including recommended indications, dosing, areas for treatment, in combination with other tissue augmentation therapies.
3. Acquire the technical skill to perform the various types of injections for the face, neck, décolleté, and hands.
4. Understand treatment pros and cons and learn **when to use PRP/PRF therapy with your patients.**

## THERAPEUTIC BOTOX COURSE OUTLINE

“Facial Aesthetics in Dentistry- Therapeutic Botox and Dermal Fillers and TMJ/TMD”

### Course description:

This professional training course serves as an in-depth introduction to the advanced skills and knowledge necessary to safely and successfully administer Therapeutic Botulinum Toxins and Dermal Fillers in everyday practice. Our course objective is to enable professionals to offer new services and be fully educated and proficient with the usage and administration of Botulinum Toxins. Our classes are limited to 10 Doctors so Doctors can get more one on one training with our esteemed triple board certified instructor.. (This course does not include Online Instruction)

### **Our (24 hour) therapeutic course reviews the following Course Outline:**

- In-depth overview for botulinum toxin products (BOTOX®, Xeomin®, Dysport®)
- Indications and contraindications for these pharmaceutical agents.
- Comprehensive instruction in the relevant anatomy, neurophysiology, musculature and circulatory system of the oral and maxillofacial areas.
- In depth overview of Temporomandibular Joint and relation to the oral maxillofacial concerns.
- How to open the conversation to patient evaluation for the best dental and facial esthetic and therapeutic results.
- Proper product handling, storage and FDA approved dilution techniques.
- Understanding the most effective treatment techniques in incorporating BOTOX® and Dermal Fillers in anatomical muscle sites, muscle depths, to maximize esthetic results.
- Study the safety and risk issues for botulinum toxin injectable therapy and Dermal Fillers.
- Marketing BOTOX® and Dermal Fillers in your practice.
- Understanding occlusion in orofacial pain.
- Dental indications and contraindication for Botulinum Toxin for TMD, myofascial pain, migraines and other indication, on and off label.
- Accurate and precis injection techniques, charting and documentation including overview of anatomy and muscle depths.
- Learn the latest treatment techniques including anatomical muscle sites, muscle depths, proper preparation, and dilution for the best oral and maxillofacial therapeutic and esthetic outcomes.
- Treatment for patients with TMJ/TMD syndrome, headaches, and myofascial pain.
- Learn best ways to avoid, manage, and treat possible adverse reactions and complications with BOTOX® and Dermal Fillers.

- Comprehensive understanding of the role of dermal fillers for volume replacement, enhancement, and correction.
- Effective Injection techniques to minimize patient discomfort and bruising.
- Effectively administer dermal fillers for various purposes including enhancing the appearance of fine lines and wrinkles.
- Review Pre-care, post-care, and consent forms. All forms will be provided post course
- Managing medical insurance reimbursement for the medical provider for TMD patients and applying the correct diagnosis and treatment codes.

### **HANDS ON MENTORED INDIVIDUAL INJECTION TRAINING**

- Comprehensive patient evaluation for the best dental and facial esthetic and therapeutic treatment outcomes using Botulinum Toxin and Fillers.
- Live reconstitution and preparation of pharmaceutical agents such as Botulinum Toxins and Fillers.
- Each participant will practice on a live patient with one on one instructor guidance and assistance. Mentored instruction is key to perfect injecting.
- Injection techniques and practical training for the usage of Botulinum toxins for bruxism and to relieve TMJ associated symptoms.
- Injection techniques and practical training for the usage of Botulinum Toxins in the upper facial areas including Frontalis muscles, Glabellar muscles and Orbicularis Oculi Muscle, Masseter muscle, Temporalis muscle and Orbicularis Oris and more.
- Injection techniques and practical training for the usage of Fillers for the lower face including volumizing nasolabial folds, marionette lines, and lifting up the corners of the mouth using anatomical landmarks.

### **OFFICE IMPLEMENTATION FORMS AND LOGISTICS**

- Proper Integration of pharmaceutical agents in dental treatment plans for effective case presentation and treatment planning.
- Overview of best fee structures for oral and maxillofacial injectable treatment.
- Overview of all digitally customizable office forms and informed consent forms needed to begin treating patients immediately with Botulinum Toxins and Dermal Fillers.
- Overview of malpractice insurance and how to secure this.
- How to set up product purchasing accounts.
- Introduction to starter kits for Botulinum Toxins and Dermal Fillers including ALL the necessary elements to start injecting patients in your office immediately.

Dr. Ferneini is a practicing Oral and Maxillofacial surgeon in Cheshire Connecticut. He is a graduate of Southern Connecticut State University (B.S.), Quinnipiac University (M.H.S., M.B.A.), University of Connecticut (D.M.D., M.D.). Dr. Ferneini completed his oral and maxillofacial surgery residency and is currently an associate clinical professor at the University of Connecticut School of Dental Medicine. He is also an associate clinical professor of Surgery at the Frank H Netter School of Medicine at Quinnipiac University. He has a long history of conducting research resulting in over 135 scientific publications and book chapters. He has lectured nationally and internationally. He is on the editorial board of multiple scientific journals and a member of numerous professional organizations. He is also the Editor in Chief of the American Journal of Cosmetic Surgery. Dr. Ferneini is a co-editor of nine textbooks on all aspects of oral and maxillofacial surgery as well as facial cosmetic surgery. He lives in Hamden Connecticut with his wife and three children.

## ADVANCED DENTAL INSTITUTE

### FACIAL AESTHETICS CERTIFICATION COURSE OUTLINE

#### **"Facial Aesthetics for Dentists TMJ, Botox, Dermal Fillers & PRP/PRF "** **28 CEU**

4 hours didactic and 6 hours hand-on

### Botulinum Toxin (BOTOX®) for Aesthetics

#### Course description:

This professional training course serves as an in-depth introduction to the advanced skills and knowledge necessary to safely and successfully administer Botulinum Toxins in every day practice. Our course objective is to enable professionals to offer new services and be fully educated and proficient with the usage and administration of Botulinum Toxins.

#### Course Outline:

- In-depth overview for botulinum toxin products (BOTOX®, Xeomin®, Dysport®)
- Indications and contraindications for these pharmaceutical agents
- Comprehensive understanding of the anatomy, muscles, and nerves of the face, head, and neck.
- Performing an initial consultation and assessment on a patient for BOTOX®.
- Safety and risk issues associated with BOTOX® treatments.
- Effectively administer BOTOX® for various purposes including enhancing the appearance of fine lines and wrinkles
- Utilizing various optimal sterile BOTOX® injection techniques to improve your injection results.
- Understanding the most effective treatment techniques in incorporating BOTOX® in anatomical muscle sites, muscle depths, to maximize esthetic results.
- Safely administer BOTOX® while avoiding any risks or adverse outcomes.
- Proper FDA approved reconstitution of Botox®
- Marketing BOTOX® in every day practice
- Appropriate fee structures for treatment
- Pre- care, post-care, and consent forms

4 hours didactic and 4 hours hand-on

## Botulinum Toxin (BOTOX®) for TMD and Myofascial Pain Therapy

### Course description:

This professional training course serves as an in-depth introduction to the advanced skills and knowledge necessary to safely and successfully administer Botulinum Toxins in treating TMD and myofascial pain cases. Our course objective is to enable professionals to new services and be fully educated and proficient with the usage and administration of BOTOX® for TMD and myofascial pain therapy.

### Course Outline:

- Identification and diagnosis of facial pain in patients.
- Comprehensive patient examination and maxillofacial neurological assessment with thorough head and neck muscle examination.
- Patient assessment
- Understanding occlusion in orofacial pain.
- Conception of the origin of facial pain from either TMD, Ears, Neuralgia, Eyes, or Facial Muscles,
- Utilizing BOTOX® for diagnosis, pain administration and effective therapeutic results.
- Safely administer botulinum toxin while avoiding any risks or adverse outcomes.
- Learn when to treat and when to refer orofacial pain patients
- Treatment for patients with TMD syndrome, headaches, and myofascial pain.
- Managing medical insurance reimbursement for the medical provider for TMD patients and applying the correct diagnosis and treatment codes.
- Pre- care, post-care, and consent forms

## 4 hours didactic and 6 hours hand-on

### Dermal Fillers for Aesthetics

#### Course description:

This professional training course serves as an in-depth introduction to the advanced skills and knowledge necessary to safely and successfully utilize dermal fillers in esthetic cases. Our course objective is to enable professionals to offer new services and be fully educated and proficient with the usage and administration of dermal fillers.

#### Course Outline:

- In-depth overview of dermal filler product knowledge.
- Comprehensive understanding of the role of dermal fillers for volume replacement, enhancement, and correction.
- Conception of the pairing of dermal fillers with Neurotoxins for optimal correction.
- Patient assessment and consultation for dermal fillers.
- Safety and risk issues for dermal fillers injectable therapy.
- Incorporating dermal filler therapy into treatment plans.
- Diagnosis, administration, and treatment planning for dermal fillers.
- Safely apply dermal fillers while avoiding any risks or adverse outcomes.
- Marketing dermal fillers in every day practice.
- Effectively administer dermal fillers for various purposes including enhancing the appearance of fine lines and wrinkles.
- Comprehensively understand the anatomical muscles surrounding the zone of dermal filler injectable cosmetic treatment.
- Effective Injection techniques to minimize patient discomfort and bruising

**Advanced Dental Institute** has included this PRP/PRF Training into it's Therapeutic & Aesthetic Botox-Dermal Fillers-TMJ course. This training will provide hands-on training through live demonstrations on patients for aesthetic uses. 28 ceu

Thoroughly understand and become proficient in the following areas:

Learn about the specific types of wrinkles, tissue damage, aesthetic enhancements, and pain areas that can be improved using available PRP technology and appropriate injection techniques.

Understand the various FDA-approved protocols associated with PRP/PRF therapy, including recommended indications, dosing, areas for treatment, in combination with other tissue augmentation therapies.

Acquire the technical skill to perform the various types of injections for the face, neck, décolleté, and hands.

Understand treatment pros and cons and learn when to use PRP/PRF therapy with your patients.

### ***EDUCATION:***

- 08/10 – 07/13: Master of Business Administration (MBA/HCM)  
Quinnipiac University, Hamden, CT
- 07/03 – 05/05: Medical Doctor (M.D.)  
University of Connecticut School of Medicine, Farmington, CT
- 08/98 – 05/02: Doctor of Dental Medicine (D.M.D.)  
University of Connecticut School of Dental Medicine, Farmington, CT
- 01/96 - 05/98: Master degree in Health Sciences: Biomedical Sciences (GPA: 3.86)  
Quinnipiac University, Hamden, CT
- 09/94 - 12/95: Bachelor of Science in Biology (GPA: 3.89, Magna Cum Laude)  
Southern Connecticut State University, New Haven, CT
- 8/93 - 6/94: Biology Major  
Quinnipiac University, Hamden, CT

### ***EXPERIENCE:***

- 01/2014-Present: Medical Director  
Beau Visage Med Spa  
Cheshire, CT
- 07/2008-Present: Private Practice  
Greater Waterbury Oral & Maxillofacial Surgeons, LLC  
Waterbury, CT

### ***TRAINING:***

- 07/07- 06/08: Chief Resident (OMFS Certificate)  
Department of Oral and Maxillofacial Surgery  
University of Connecticut School of Dental Medicine, Farmington, CT
- 07/02- 06/07: Resident  
Department of Oral and Maxillofacial Surgery  
University of Connecticut School of Dental Medicine, Farmington, CT

07/05- 06/07: Resident (2-year General Surgery Certificate)  
Department of Surgery  
University of Connecticut School of Medicine, Farmington, CT

03/01-04/01: Externship in Anesthesiology  
Yale University School of Medicine/Yale-New Haven Hospital, New Haven, CT

12/00- 01/01: Externship  
Department of Oral and Maxillofacial Surgery  
St. Raphael's Hospital, New Haven, CT

08/96 - 07/00: Research Assistant (08/96-07/98) & Research Associate (07/98- 07/00)  
Anesthesiology Department, Yale University School of Medicine, New Haven, CT

Summer 98: Research on *Msx-2* gene  
University of Connecticut, School of Dental Medicine, Farmington, CT

05/97 –05/02: Science Tutor, In-Home Personalized Tutoring, Fairfield, CT

01/96 - 08/96: Research Assistant  
Cardiology Department, Yale University School of Medicine, New Haven, CT

Spring 96: Research work on P53 gene  
Southern Connecticut State University, New Haven, CT

### ***HOSPITAL APPOINTMENTS:***

2008-Present: St Mary's Hospital, Waterbury, CT  
2008-Present: Naugatuck Valley Surgical Center, Waterbury, CT  
2009-Present: John Dempsey Hospital, Farmington, CT  
2013-Present: Hartford Hospital, Hartford, CT  
2014-Present: Connecticut Children's Medical Center

### ***FACULTY APPOINTMENTS:***

## **RESEARCH PRESENTATIONS:**

1. Halepas S, **Ferneini EM**. Diluted and Hyperdiluted Calcium Hydroxylapatite for Skin Tightening. Abstract accepted and will be presented at the 104th Annual Meeting of the American Association of Oral and Maxillofacial Surgeons, New Orleans, LA, September 12-17, 2022.
2. Christiansen C, Halepas S, **Ferneini EM**. Nonsurgical Rhinoplasty: Indications and Safety. Abstract presented at the 103<sup>rd</sup> Annual Meeting of the American Association of Oral and Maxillofacial Surgeons, Nashville, TN, September 30-October 2, 2021.
3. Halepas S, Noujiam Z, **Ferneini EM**. Thread-Lift Sutures: Indications and Safety. Abstract presented at the 102<sup>nd</sup> Annual Meeting of the American Association of Oral and Maxillofacial Surgeons, San Antonio, TX, October 5-10, 2020.
4. Beauvais D, **Ferneini EM**. Complications and Litigation Associated with Injectable Facial Fillers: A Cross-sectional Study. Abstract presented at the 101th Annual Meeting of the American Association of Oral and Maxillofacial Surgeons, Boston, MA, September 16-20, 2019.
5. Halepas S, Weyman D, **Ferneini EM**. Complications in Minimally Invasive Facial Cosmetic Surgery. Abstract presented at the 100<sup>th</sup> Annual Meeting of the American Association of Oral and Maxillofacial Surgeons, Chicago, IL, October 8-13, 2018.
6. Kirk D, Gart L, **Ferneini EM**. Deoxycholic Acid Injection for the Reduction of Submental Fat in Adults. Abstract presented at the 98<sup>th</sup> Annual Meeting of the American Association of Oral and Maxillofacial Surgeons, Las Vegas, NV, September 18-23, 2016.
7. Kirk D, **Ferneini EM**. Safety of Hyaluronic Acid as a Soft Tissue Filler in Facial Cosmetic Surgery. Abstract presented at to the 97<sup>th</sup> Annual Meeting of the American Association of Oral and Maxillofacial Surgeons, Washington, DC, September 28-October 3, 2015.
8. Jalali E, **Ferneini EM**, Natarajan E, Rengasamy K, Tadinada A. Malignant Transformation of a Keratocystic Odontogenic Tumor: A Rare Occurrence. Abstract presented at the 64<sup>th</sup> Annual Session of the American Academy of Oral & Maxillofacial Radiology, Beverly Hills, CA, October 2-6, 2013.
9. Boynton T, Yau R, Ferneini, C, **Ferneini EM**. Patient Satisfaction and Safety of Dysport in an Oral and Maxillofacial Surgery Practice. Abstract presented at the 95<sup>th</sup> Annual Meeting of the American Association of Oral and Maxillofacial Surgeons, Orlando, FL, October 7-12, 2013.
10. **Ferneini EM**, Bevilacqua RG. Maxillary Sinus Augmentation with large quantity of autogenous tibial bone graft. Abstract presented at the 89<sup>th</sup> Annual Meeting of the American Association of Oral and Maxillofacial Surgeons, Honolulu, HI, October 8-13, 2007.
11. **Ferneini EM**, Bufalini M, Piecuch JF. Incidence of alveolar osteitis with intraoperative tetracycline application. Abstract presented at the 85<sup>th</sup> Annual Meeting of the International Association of Dental Research, New Orleans, LA, March 21-24, 2006.
12. Omar W, Silverman DG, **Ferneini EM**, Awad A, Scannell M, Stout RG. Comparison of laser Doppler flowmetry indices. Abstract presented at the 2002 Annual Meeting of the International Anesthesia Research Society.
13. **Ferneini EM**, Bennett J, Caldemeyer C, Vazquez M, Halaszynski T. Peripheral Assessment of Anxiety Induced Vasoconstriction by Laser Doppler Flowmetry from two different injections. Abstract submitted to the 83<sup>rd</sup> Annual Meeting of the American Association of Oral and Maxillofacial Surgeons, Orlando, Fl, September 12-15, 2001.
14. Halaszynski T, **Ferneini EM**, Bennett J. Peripheral Assessment by Laser Doppler Flowmetry of Anxiety Induced Vasoconstriction from Intra-Oral Injections Compared to Subcutaneous Injections of 3% Mepivacaine. Abstract presented at the 2001 Annual Meeting of the American Society of Anesthesiologists, New Orleans, LA, Oct 2001.

15. Joska T, **Ferneini EM**, Jain D. Peripheral Artery Tonometry for the Non-Invasive Detection of Endothelial Dysfunction. Abstract presented at the 73rd Scientific Session of the American Heart Association, New Orleans, LA, November 12-15, 2000.
16. **Ferneini EM**, Bennett J, Elkadi T, Joska TM, Halaszynski T. Hemodynamic Changes of long buccal injections of 2% Lidocaine/1:100,000 Epinephrine to 3% Mepivacaine. Abstract presented at the 78<sup>th</sup> Annual Meeting of the International Association for Dental Research, Washington, DC, April 5-8, 2000.
17. **Ferneini EM**, Bennett J, Elkadi T, Joska TM, Halaszynski T. Hemodynamic Changes of long buccal injections of 2% Lidocaine/1:100,000 Epinephrine to 3% Mepivacaine. Abstract presented at the Seventh Annual Medical/Dental Student Scientific Research Day, University of Connecticut, Farmington, CT, February 28, 2000.
18. Tantawy H, Stout RG, **Ferneini EM**, Radwan A, Podgoreanu M. Different Responses of Time-Domain and Spectral Domain Analyses to Alterations in Vagal Activity Induced by Metronome Breathing and Phenylephrine Infusion. Abstract presented at the 2000 Annual Meeting of the International Anesthesia Research Society.
19. Podgoreanu M, Stout R, **Ferneini EM**, Ghobashy A, Silverman D. Delineation of Peripheral Vasomotor Activity during Extracorporeal Circulation. Abstract presented at the 2001 Annual Meeting of the American Society of Anesthesiologists, Oct 2001.

Course Title:

ASIST: Applied Suicide Intervention Skills Training

Course Description: Please see documents attached

"ASIST" provides practical training for caregivers seeking to prevent the immediate risk of suicide. The emphasis of the ASIST workshop is on suicide First Aid, helping a person at risk to stay safe and seek further help.

Learning Objectives:

- 1) Recognize the invitations for help.
- 2) Reach out and offer support.
- 3) Review the risk of suicide.
- 4) Apply a suicide intervention model.
- 5) Link persons at risk with community resources.
- 6) Allow ample time for discussion of policies and resources that are specific to the local school district.

Outline of Course: Please see documents attached

## Applied Suicide Intervention Skills Training (ASIST)

### Course Description—

The Applied Suicide Intervention Skills Training (ASIST) workshop is for caregivers who want to feel more comfortable, confident and competent in helping to prevent the immediate risk of suicide. Over 950,000 caregivers have received this training. Just as "CPR" skills make physical first aid possible, training in suicide intervention develops the skills needed for suicide first aid. ASIST is a two-day (16 hours) intensive, interactive and practice-dominated course designed to help caregivers recognize risk and learn how to intervene to prevent the immediate risk of suicide.

The workshop is for all caregivers (any person in a position of trust). This includes professionals, paraprofessionals and lay people. It is suitable for mental health professionals, nurses, physicians, pharmacists, teachers, counselors, youth workers, police and correctional staff, school support staff, clergy, and community volunteers. In ASIST, sophisticated helping concepts are translated into generic language so that different types of caregivers can learn together. Emphasizing structured small-group discussions and practice, the course uses a 20-page workbook and two award-winning audiovisuals. Participants receive a 152-page Suicide Intervention Handbook and a full color, tear-resistant pocket card featuring intervention, and risk review and safeplan development principles. They serve as living refreshers of the workshop learning. ASIST is the most widely used suicide intervention-training program in the world. (Additional information is available as a video clip online at <http://www.livingworks.net/flash/asist.html>)

### Course Content—

The ASIST workshop is divided into five sections, each with defined goals that, in combination, produce individuals who are ready, willing and able to provide suicide "first aid".

1. **Introduction – Preparing:** The goals of this section are as follows: (1) understand that the focus of this workshop is suicide first aid; (2) describe the need for caregivers to be able to do suicide first aid interventions; (3) describe why ASIST is a good way for caregivers to learn suicide first aid; (4) describe the goals and objectives of the workshop; (5) create awareness of the group's experiences with suicidal behaviors; (6) know that group/individual participation are needed to make the workshop succeed.
2. **Attitudes – Connecting:** The goals of this section are for participants to: (1) talk more openly about individual attitudes toward suicide and suicide first aid; (2) recognize how feelings about personal experiences with suicide might affect suicide first aid interventions; (3) identify beliefs that might make it difficult to be direct and comfortable in suicide situations. Identify beliefs that might be helpful in suicide first aid interventions.
3. **Knowledge – Understanding:** The goal of this section is to begin preparing participants to use the Suicide Intervention Model (SIM) by understanding how SIM meets the intervention needs of persons at risk. By completing this section, participants will be able to: (1) recognize SIM as a tool for meeting the intervention needs of the person at risk; (2) name the six basic caregiver tasks of SIM and explain how these tasks address the concerns of a person at risk; (3) understand how to use the Risk Review and Safeplan Guide.
4. **Intervention Skills – Assisting:** The goal of this section is to help participants feel more ready, willing, and able to assist a person at risk. By completing this section, participants will be able to: (1) recognize SIM as a tool that helps participants combine attitudes, knowledge and intervention skills in order to provide suicide first aid; (2) understand SIM; (3) use SIM to help a person at risk of suicide.
5. **Resources – Networking:** The goal of this section is to have participants commit to help with the networking of their community. By completing this section, participants will be able to: (1) complete the identification of existing community resources; (2) be optimistic about the possibility of building resource networks for persons at risk of suicide; (3) understand how ASIST supports the development of resource networks; (4) recognize the value of personal resource networks and other self-care ideas for caregivers.

**Course Activities—**the ASIST workshop has been developed using the principles of adult-learning. The following are the core training processes and activities used in ASIST.

1. **Lectures:** There are only two places in the workshop in which the lecture format is used for any long period of time.
2. **Mini-lectures:** Mini-lectures are information pieces that take only a few minutes to present. They are used in the Understanding section, in presenting the summaries of the whole group simulations, and for the ending of the workshop in the Networking section.

Received  
NOV 13 2023  
NSBDE

3. **Open-ended questioning:** Open-ended questions are used to start discussions. They are used in the Connecting section.
4. **Socratic questioning:** Socratic questions are used to help the participants appreciate the value of their individual and collective understanding of suicide.
5. **Simulation experiences:** There are a number of simulation experiences in ASIST, both in whole group and work group settings. Throughout these simulations, participants have the opportunity to intervene with a trainers and participants role-playing persons at risk for suicide by practicing the SIM in various ways.
6. **Running simulations:** A running simulation is a special type of simulation that is regularly stopped to give time for questions, comments, and discussions. The two simulations in the Understanding section are of this type.
7. **Commenting through restatements and summaries:** Comments can be helpful to add to the learning process. The purpose of the restatements and summaries is to help participants integrate learning.

**Required Texts, Readings, and Instructional Resources.**

*ASIST Workbook.*

*Intervention model wallet cards.*

*Audiovisual demonstrations of Suicide First Aid Intervention*

*Suicide Intervention Handbook.*

**Implementation of Skills:**

By utilizing the above training processes throughout the ASIST workshop, participants are able to see, hear, and learn the information and skills needed to provide suicide first aid. They have the opportunity to practice these skills in both large group and small workgroup formats by the end of the course.

**Evaluation of ASIST:**

The Applied Suicide Intervention Skills Training workshop has undergone extensive evaluation in Canada, United States, Scotland, Ireland, Northern Ireland, Australia and Norway. ASIST is regarded as evidenced based (Macro International (2008) *Cross-site Evaluation of the Garrett Lee Smith Suicide Prevention and Early Intervention Program, Training Utilization and Penetration Interviews (TUP): Applied Suicide Intervention Skills Training (ASIST), January 29-30, 2008.* Salem: Oregon Department of Human Services) and as reflecting best practices (Best Practices for the Suicide Prevention Resource Center in the United States). Further evaluation information can be obtained on the LivingWorks website at [www.livingworks.net](http://www.livingworks.net).

## Applied Suicide Intervention Skills Training (ASIST)

*ASIST is a two-day interactive workshop in suicide first-aid. ASIST teaches participants to recognize when someone may be at risk of suicide and work with them to create a plan that will support their immediate safety. Although ASIST is widely used by healthcare providers, participants don't need any formal training to attend the workshop—ASIST can be learned and used by anyone.*

### ASIST makes a difference

As the world's leading suicide intervention workshop, LivingWorks' ASIST program is supported by numerous evaluations including independent and peer-reviewed studies. Results demonstrate that ASIST helps participants become more willing, ready, and able to intervene with someone at risk of suicide.

ASIST is also proven to reduce suicidality for those at risk. A 2013 study that monitored over 1,500 suicidal callers to crisis lines found that callers who spoke with ASIST-trained counselors were 74% less likely to be suicidal after the call, compared to callers who spoke with counselors trained in methods other than ASIST. Callers were also less overwhelmed, less depressed, and more hopeful after speaking with ASIST-trained counselors.

**FOCUS:** Suicide intervention training

**DURATION:** Two days (15 hours)

**PARTICIPANTS:** Anyone 16 or older

**TRAINERS:** Two registered trainers per 15–30 participants

**LANGUAGES:** English, French, Spanish, Inuktitut, and Norwegian; Large print and Braille also available

### Goals and objectives

In the course of the two-day workshop, ASIST participants learn to:

- Understand the ways personal and societal attitudes affect views on suicide and interventions
- Provide guidance and suicide first-aid to a person at risk in ways that meet their individual safety needs
- Identify the key elements of an effective suicide safety plan and the actions required to implement it
- Appreciate the value of improving and integrating suicide prevention resources in the community at large
- Recognize other important aspects of suicide prevention including life-promotion and self-care

### ASIST trainers

ASIST workshops are facilitated by a minimum of two registered trainers who have completed a five-day *Training for Trainers (T4T)* course. ASIST trainers come from diverse backgrounds, but they must all deliver regular workshops and participate in a rigorous quality control program to remain registered. For information about trainers in your area, email [info@livingworks.net](mailto:info@livingworks.net). A listing of upcoming workshops is available at [www.livingworks.net](http://www.livingworks.net) under "Find a Training."

### ASIST participants

ASIST is a resource for the whole community. It helps people apply suicide first-aid in many settings: with family, friends, co-workers, and teammates, as well as formal caregiving roles. Many organizations have incorporated ASIST into professional development for their employees. Its widespread use in various communities creates a common language to understand suicide safety issues and communicate across different organizational backgrounds.

## Workshop Process

ASIST is based on adult learning principles. Valuing participants' contributions and experiences, it encourages them to take an active role in the learning process. ASIST's key features include:

<b>Small-group learning</b>	To facilitate involvement, participants spend over half the workshop in a small group with one of the trainers.
<b>Audiovisual aid</b>	High-quality slides, diagrams, and videos help participants understand and memorize concepts.
<b>Training focus</b>	Some participants may have previous personal or professional experience with suicide or intervention. ASIST builds on these experiences to contribute to the overall learning goal—providing suicide first-aid.
<b>Reliable, proven model</b>	Workshop activities are structured around the ASIST intervention model and provide applicable, hands-on skills practice.
<b>Emphasis on individual needs</b>	Participants learn to adapt to the specific circumstances of a person at risk and work collaboratively to help them stay safe.
<b>Perspective matters</b>	Participants are encouraged to reflect on and share their own attitudes about suicide and suicide intervention. This helps them understand how their perspectives may affect their role in providing help to a person at risk.
<b>Direct approach</b>	By encouraging honest, open, and direct talk about suicide, ASIST helps prepare to discuss the topic with a person at risk.
<b>Adaptable components</b>	ASIST trainers can tailor certain features of the program, such as role-playing activities, to meet participants' professional or cultural needs.

## ASIST Workshop Information

Thank you for your interest in attending this special presentation of Applied Suicide Intervention Skills Training (ASIST). ASIST is designed for caregivers seeking to prevent the immediate risk of suicide. The emphasis of the ASIST workshop is on suicide first aid. The workshop is 2 full days, 8 hours each day; please consider this when registering for the workshop. No partial credit will be given; you must fully attend and participate in order to receive a certificate and/or CE credits.

At the end of the workshop, participants will be able to:

- Recognize invitations for help
- Reach out and offer support
- Review the risk of suicide
- Apply a suicide intervention model
- Link persons at risk with community resources

### Training Schedule

Registration Begins at 8:00 a.m. both days

Program Begins at 8:30 a.m. and ends at 4:30 p.m. on both days.

Breakfast/Lunch and refreshments will be provided.

### CE Credit

Continuing Education credits (12-13.5 hrs) are available for the following Nevada boards: Alcohol, Drug & Gambling Counselors, Marriage & Family Therapists and Clinical Professional Counselors, Psychologists, and Social Work Board. Board of Education approves 1 credit.

### Meet Your Trainers....

**Misty Allen, MA**

Misty is the Suicide Prevention Coordinator for the State of Nevada's Office of Suicide Prevention. She has more than 15 years of experience in suicide prevention, intervention and postvention. Misty has been a registered trainer of ASIST since 2006

**Janett Massolo**

Janett is the Youth Suicide Prevention Program Assistant for the State of Nevada's Office of Suicide Prevention. She has more than 15 years of experience in crisis intervention and Suicide intervention, prevention and postvention efforts for the suicide prevention hotline. Janett has been a registered trainer of ASIST since 2009.

### On Training Day...

- ♦ ASIST is an intervention skills training; please be prepared to practice.
- ♦ The subject of suicide may elicit certain reactions; the safety and confidentiality of all participants is maintained throughout the workshop.
- ♦ Dress comfortably, as the workshop is interactive; you will be working in small and large group settings.
- ♦ All training materials are provided; you may want to bring a pen, pencil and/or highlighter for note-taking.
- ♦ At the conclusion of the training, you will complete a lengthy evaluation; this is a requirement of our federal grant and of the LivingWorks program.
- ♦ In order to receive CEUs and/or a certificate of completion, you must attend both, full days of training and complete the evaluation. No credit is given for partial attendance.
- ♦ If you wish to network with other participants, you may bring business cards or other contact information.

*Your cooperation in these matters will help ensure an effective and efficient training experience for everyone - thank you!*

# MISTY VAUGHAN ALLEN

(775)853-4363

## OBJECTIVE

To augment my work in a challenging and meaningful way where I can utilize my knowledge of suicide prevention and crisis intervention, my experience in running a statewide entity and my ability to bring diverse groups together to accomplish common goals.

## PROFESSIONAL EXPERIENCE

### Office of Suicide Prevention

2005-Present

Division of Public and Behavioral Health

Department of Health and Human Services, State of Nevada

#### Suicide Prevention Coordinator

*Facilitate the development of the Statewide Suicide Prevention Plan to include the development of public awareness campaigns, local advisory groups and enhance crisis intervention services. Provide education to the public and those that have regular contact with people at risk for suicide. Sustain suicide prevention programs through grant writing and management. Supervise the Suicide Prevention Training and Outreach Facilitator and the Youth Suicide Prevention Coordinator and the Youth Suicide Prevention Program Specialist.*

#### Key Achievements:

- ❖ Development, implementation and evaluation of the first Nevada Suicide Prevention Plan.
- ❖ Awarded two state Garrett Lee Smith Youth Suicide Prevention grant and collaborated in the development of two successfully funded tribal GLS grants.
- ❖ Co-authored *Suicide Trends and Prevention in Nevada*, 2011
- ❖ Master Trainer with LivingWorks for Applied Suicide Intervention Skills (ASIST) and safeTALK provisional trainer.
- ❖ Supported successful legislation to develop a statewide Suicide Fatality Review Committee.
- ❖ Participated in SAMHSA Policy Academy to develop first Suicide Prevention Plan for Service Members, Veterans and their Families for Nevada.

### Crisis Call Center

1998-2003

PO Box 8016, Reno, NV 89507 (775) 784-8085

#### Crisis Lines Coordinator

*Oversaw all operations of Crisis Call Center as co-coordinator of management team. Responsibilities included supervision of the hotlines, board/staff relations, budgets, grant writing and grant administration, training and education, public awareness and networking. Left the Center due to relocation. Final salary was \$35,000.*

#### Key Achievements:

- ❖ Recruited, trained and supervised 14 staff and 70 volunteers to answer the statewide, 24-hour suicide prevention and crisis intervention hotline.
- ❖ Established first certified statewide suicide prevention hotline in Nevada. Enhanced this service by becoming a member of the National Suicide Prevention Hopeline Network.
- ❖ Bridged communication gap regarding suicide prevention between Northern and Southern Nevada.
- ❖ Advocated at the Nevada State Legislature toward successful passage of SCR11 in 1999 and SCR3 in 2001.

Received

NOV 13 2023

NSBDE

- ❖ Consulted with the Nevada Legislative Subcommittee to Study Suicide Prevention 2001-2002.
- ❖ Supervised compilation and publication of the Community Resource Directory.
- ❖ Expanded access of crisis intervention services to diverse groups of people by making available bilingual services and materials.
- ❖ Increased accessibility to and awareness of the Suicide Prevention Hotline, leading to an increase in call volume of 60%.
- ❖ Educated public and professional groups in all aspects of suicide prevention and crisis intervention.
- ❖ Facilitated the Survivors of Sexual Assault support group for five years.

**University of Nevada** 1996-1998  
 Counseling and Educational Psychology, Reno, NV 89557 (775) 784-6637  
 Graduate Assistant—Dr. Cynthia Baldwin, Head of Marriage and Family Therapy  
*Assisted professors with research, publications, and class presentations and organization. Presented lectures to students and classmates. Graduated.*

**Key Achievements:**

- ❖ Invited to train Crisis Call Center volunteers and parent groups on issues related to diversity, sexuality and communication skills.

**United States Peace Corps** 1992-1994  
 Washington DC 20526 (800) 424-8580

## SUMMARY OF QUALIFICATIONS

Accomplished professional with over 18 years of experience working in a 501c3 non-profit agency. Skilled and knowledgeable instructor on subjects pertaining to mental health and suicide prevention. Experience in creating and leading programs serving at-risk youth and low-income families. Proven success in developing relationships with community partners, key stakeholders and in working with the public at large, and ability to prioritize a heavy workload with regular interruptions while always maintaining a smile and sense of humor.

## PROFESSIONAL EXPERIENCE

**Children's Cabinet  
Program Manager**

**Reno, NV**

### 2003 – Present

- Certified Instructor for Youth Mental Health First Aid (2015) and Mental Health First Aid (2020). Recipient of Community Impact Award and was named 2021 National Instructor of the Year by National Council for Mental Wellbeing. Extensive experience in facilitating both in-person and virtual trainings.
- Project Manager currently overseeing SAMHSA Mental Health Awareness Training (MHAT) grant. Successfully certified over 400 persons in Youth Mental Health First Aid since inception of grant in 2020. Responsible for implementation and supervision of grant, recruiting and training participants, creation of policies and procedures, and collecting and reporting data reported to SAMHSA. Served as a mentor multiple times in assistance of other MHAT grantees at request from our Federal Project Officer.
- Vastly expanded awareness of Mental Health First Aid throughout Washoe County and statewide in Nevada, through multiple media interviews, social media posts, and attendance at networking events.
- Certified SafeTALK Instructor, another internationally recognized training designed to teach participants how to recognize signs of suicide in a person and how to connect them to an intervention resource for further support. Successfully facilitated and completed 33 trainings and counting, as an instructor.
- Served as Project Coordinator for Signs of Suicide (SOS), a SAMHSA recognized program designed to educate and identify youth at risk for suicide or other mental health issues. Created the training and screening procedures from the ground up into a program now mandated at all middle schools within the Washoe County School District.
- Previous case management experience, working with families and youth from diverse backgrounds. Conduct intake interviews to determine best needs for families and youth served.
- Extensive contact with clients and the public while providing excellent customer service. Conduct intake and case management for families and youth in crisis to determine appropriate services and resources in order to better serve clients.

**Safe Direction Firearms Training – [www.safedirectionfirearmstraining.com](http://www.safedirectionfirearmstraining.com)**

Firearms instructor

NRA ratings in Basic Pistol, Basic Rifle, Basic Shotgun, Protection Inside the Home, Protection Outside the Home, and Home Firearm Safety. Instructor ratings in all of these classes. Also I am a Chief Range Safety Officer.

I have earned the top NRA marksmanship ratings in Basic Pistol, Defensive Pistol 1 and Defensive Pistol 2. "Distinguished Expert."

I am licensed by Nevada County Sherriffs Association and Las Vegas Metropolitan Police Department to teach their Concealed Firearms Permit course.

I am licensed by the Bureau of Criminal Identification in Utah to teach the Utah Concealed Firearms Permit Course.

I am also licensed as an instructor to sign off on Arizona and Florida for their Concealed Firearms Courses.

I have permits that allow me to Conceal Carry a firearm in 39 states.

Gun Safety and properly securing a firearm are most important to me.

**Nevada Coalition for Suicide Prevention and Office of Suicide Prevention.**

**Living Works – [www.livingworks.net](http://www.livingworks.net)**

I have completed the "Safe Talk" and "ASIST" trainings.

I am a "Safe Talk" Instructor.

In addition I have written a PowerPoint lecture under the direction of Richard Egan on "Parents and Gun Safety." This will soon be posted on a website for use by teachers and counselors in Nevada.

The FBI is interested in placing this lecture into agent training for the FBI.

I am involved with "Signs of Suicide," working with Private and Charter Middle Schools and High Schools on suicide awareness and screening with students.

**Trauma Intervention Program – TIP – [www.tipoflasvegas.org](http://www.tipoflasvegas.org)**

I am on the crisis intervention team.

In addition to my three days a month to be on call I add on extra shifts whenever my schedule allows me to assist by covering someone else's shifts or calls.

## 1. Course Description

The presentation is a microsurgical journey involving twenty- four years of clinical cases demonstrating treatment dilemmas, management, and techniques promoting preservation and regeneration of the periradicular structures. Questions regarding the usage of membranes and bone grafting will be reviewed as well as an explanation of bioactive membranes and biologics used in regenerative procedures. A presentation of surgical treatments will be used to explain and exemplify various incisions, suturing, and management objectives in periradicular regeneration.

## 2. Educational Objectives

Identify treatment challenges best managed with microsurgery.

Define vertical incisions and conditions in which they can be used.

Understand retrograde root canal treatment.

Define bioactive membranes and technique.

Understand enamel matrix derivatives and application.

View surgical technique used in regenerative procedures.

## 2. Who Should Attend

Dental professionals

## 4. Teaching method

Lecture presentation using PowerPoint

## 5. Speaker Photograph and Information

Dr. David Reeves spent most of his formative years in Montana and Northern California. He earned his DDS degree in 1985 from Loma Linda University and practiced general dentistry in South Lake Tahoe prior to his endodontic training. In 1999 he completed his endodontic training at Boston University. At this time Dr. Reeves maintains a full-time private practice limited to endodontics and microsurgery in Reno Nevada.

He has completed post graduate training in occlusion at the Foundation of Advanced Continuing Education (FACE), Loma Linda University MaxiCourse in implantology, and various surgical courses at the Interdisciplinary Dental Education Academy (IDEA).

Dr. Reeves has pursued microsurgical concepts and techniques through the years as a journey in resolving root pathologies and regenerating periradicular structure. He is a contributing clinician to the textbook Endodontics, authored by Dr. Arnaldo Castellucci.

## Preservation And Regeneration Of Periradicular Structure In Endodontic Microsurgery

### Presented By: Dr. David Reeves, DDS

David Reeves maintains a private practice limited to endodontics and implant surgery in Reno Nevada.

He began his career practicing general dentistry in the National Health Service Corps for a period of three years and continued general dentistry for additional nine years in private practice. His technical interests in endodontics, three-dimensional anatomy, and the use of the dental operating microscope lead him to continue his education specializing in endodontics.

In 1985, he received his dental degree and received the prince award for clinical and professional excellence at Loma Linda University, and completed the endodontic graduate program at Boston University under Herbert Schilder's chairmanship in Boston, MA., in 1999.

In addition he involves himself in continuing education having completed post graduate training in occlusion at the Foundation of Advanced Continuing Education (FACE), Loma Linda University MaxiCourse in implantology, and various surgical courses at the Interdisciplinary Dental Education Academy (IDEA).

His passion for endodontics extends to the promotion of team development as a necessary element in providing the highest level of care.

**Date: Thursday January 18, 2024**

**Time: Light Dinner 5:00 Presentation 5:30-8:00pm**

**Location: Hyatt Pace reno/Tahoe Airport**

1790 E Plumb Lane, Reno, NV 89502

**Fee: 2.5 CE credits**

### Course Description:

The presentation is a microsurgical journey involving twenty- four years of clinical cases demonstrating treatment dilemmas, management, and techniques promoting preservation and regeneration of the periradicular structures. Questions regarding the usage of membranes and bone grafting will be reviewed as well as an explanation of bioactive membranes and biologics used in regenerative procedures. Course Title: Diode Lasers - Standard Proficiency Course

Course Description:

This course follows the curriculum guidelines and standards for a standard proficiency training course.

Learning Objectives:

Upon completion of this learning activity, you will be able to:

- Understand all Laser Safety guidelines compliant with the American Nation Standards Institute and OSHA guidelines.
- Understand basic laser physics
- Understand basic settings and basic use of the laser.
- Apply knowledge to case presentation
- Have a resource for support

Outline of Course:

- Section One
  - Introduction of diode lasers
- Laser Safety & Laser Classifications
- ANSI Guidelines for Laser Safety

Section Two

- History of Lasers
- Electromagnetic Spectrum
- Laser Tissue Interaction
- Wavelengths and Variables Affecting Laser Functionality

Section Three

- Goals of Periodontal Therapy
- Laser Technique/Procedures & Best Practices
- Documentation

Section Four

- Hands On Exercises

## **Jason Genta DDS, MBA**

Dr. Jason Genta received his undergraduate degree in Economics from Saint Louis University, and is a 2011 graduate of Creighton University School of Dentistry in Omaha, Nebraska. Following dental school, he completed a 1 year AEGD at UCLA in Westwood California. In 2012, Dr. Genta moved to Chicago where he joined DecisionOne Dental Partners, who at the time, was a group practice with 4 locations. DecisionOne has now grown to 60+ dentists and 40 locations in Illinois and Wisconsin. From 2016-2023, he served as Vice President of Clinical Affairs, playing an active role in Doctor Recruiting, Training, Mentorship, and New Practice Acquisitions and Mergers. In 2022, Dr. Genta furthered his education by earning a Masters in Business Administration at Creighton University. Since 2023, Dr. Genta has worked as the Vice President of Clinical Operations for Smile Brands, a DSO with over 600 offices and 2,000 providers throughout the country.

- Laser training in the UCLA AEGD program in 2012, and utilization of the laser in private practice
- Laser Education and Competency as a licensed provider, and through multiple laser continuing education programs including recognized experts Jan Lebeau RDH, and Kristin Hunter RDH, BS
- Training completed for providers within multiple markets within Smile Brands
- Consultation and partnership with vendor partners at both DenMat and Ultradent to stay abreast of emerging technologies
- National speaker for both practicing dentists and in dental schools

# Tammy L. Filipiak RDH, MS, FADHA

# **Jenny Rush, RDH, BSDH**

Jenny Rush is a diode laser user of 10 years, working with multiple lasers in the industry. She has been the Director of Dental Hygiene for DecisionOne Dental, based out of the Chicagoland area since 2017. Jenny leads over 100 hygienists in 40 offices to support a Standard of Excellence for patients. She's been a hygienist for almost 16 years, earning her Associate's from Harper College in Palatine, Illinois in 2008 and her BSDH from the University of Bridgeport in Connecticut in 2013. Ms. Rush has been a proud member of the ADHA since the start of her hygiene career and has served in various positions for her local component over the years. In 2019 DecisionOne Dental joined Smile Brands and since 2023, Jenny has been supporting other Smile Brands offices with adding laser therapy to their patient care standards.

- 5/1/2015 - 6 hour CE - Ultimate Soft Tissue Laser Certification Course by Dr. Chris Owens
- 2015 Level 1 Laser Certification Course - Associate Fellowship Certification - Soft Tissue Surgical and Periodontal Applications - World Clinical Laser Institute

#### Speaker(s) Information:

##### Biographical Sketch:

I am applying our group of doctors as a study group. We plan to meet biannually (March 1, 2024 and November 8, 2024, dates TBD for 2025). The focus of our group is leadership development to cultivate strong team environments in the dental office setting and exploring strategies that can make our practices more efficient, while providing a great experience for our patients. The list of all our study group members is included.

For our March 1st meeting, we are applying for 3 hours of CE for 3 subjects that will be presented by three different speakers. Our first speaker is Chris Geode—leadership expert and Executive Vice President of Corporate Solutions Group at Maxwell Leadership. Our second presentation will be from Lacie Bourland, MBA, M.Ed., certified patient experience professional, Senior Director at Blue Tree Dental. Our third presentation will be from Dr. Brad Munninger, general dentist and practice owner of The Dentist's Office, Fernley.

Course Title: Practice Leadership Conference

**Course Description:**

These three separate lectures should help provide our doctors with a wide array of different tools and skills that they can implement in their office to strengthen teamwork dynamics in their office and in turn, improve patient experience .

**Learning Objectives:**

- To be able to distinguish the 5 levels of leadership
- To be able to access your level of leadership and steps needed to achieve next level
- To learn to develop and elevate other leaders
- To learn how to create a CareGuide
- To be able to identify the 5 P's and how they should shape your CareGuide
- To learn how to translate the goals of your CareGuide down to your team members
- To be able to define transformative communication
- To identify ways to execute transformative communication in your office

## **Outline of Course**

### **The 5 Levels of Leadership**

**By** Chris Geode

- Where are you on your leadership journey, and where do you go from here?
- Where do you stand and how do you get to the next level?
- THE 5 LEVELS OF LEADERSHIP
  - Level 1 — Position
    - The lowest level of leadership – no ability or effort to achieve, people only follow if they believe that they have to.
  - Level 2 — Permission
    - Level 2 is based on relationship. People choose to follow because they want to.
    - Cultivating relationships and connection
    - Valuing individuals and building trust and respect
  - Level 3 — Production
    - Motivation, influence, and credibility
    - Building influence through results
    - Becoming a change agent
  - Level 4 — People Development
    - Investing in next cycle of leaders
    - Identifying potential for leadership
    - Building mentoring relationships
  - Level 5 — Pinnacle
    - Longevity and intentionality
    - Transcending your position

### **Principles of Practice Success/Careguide. 5 P's**

**By** Lacie Bourland

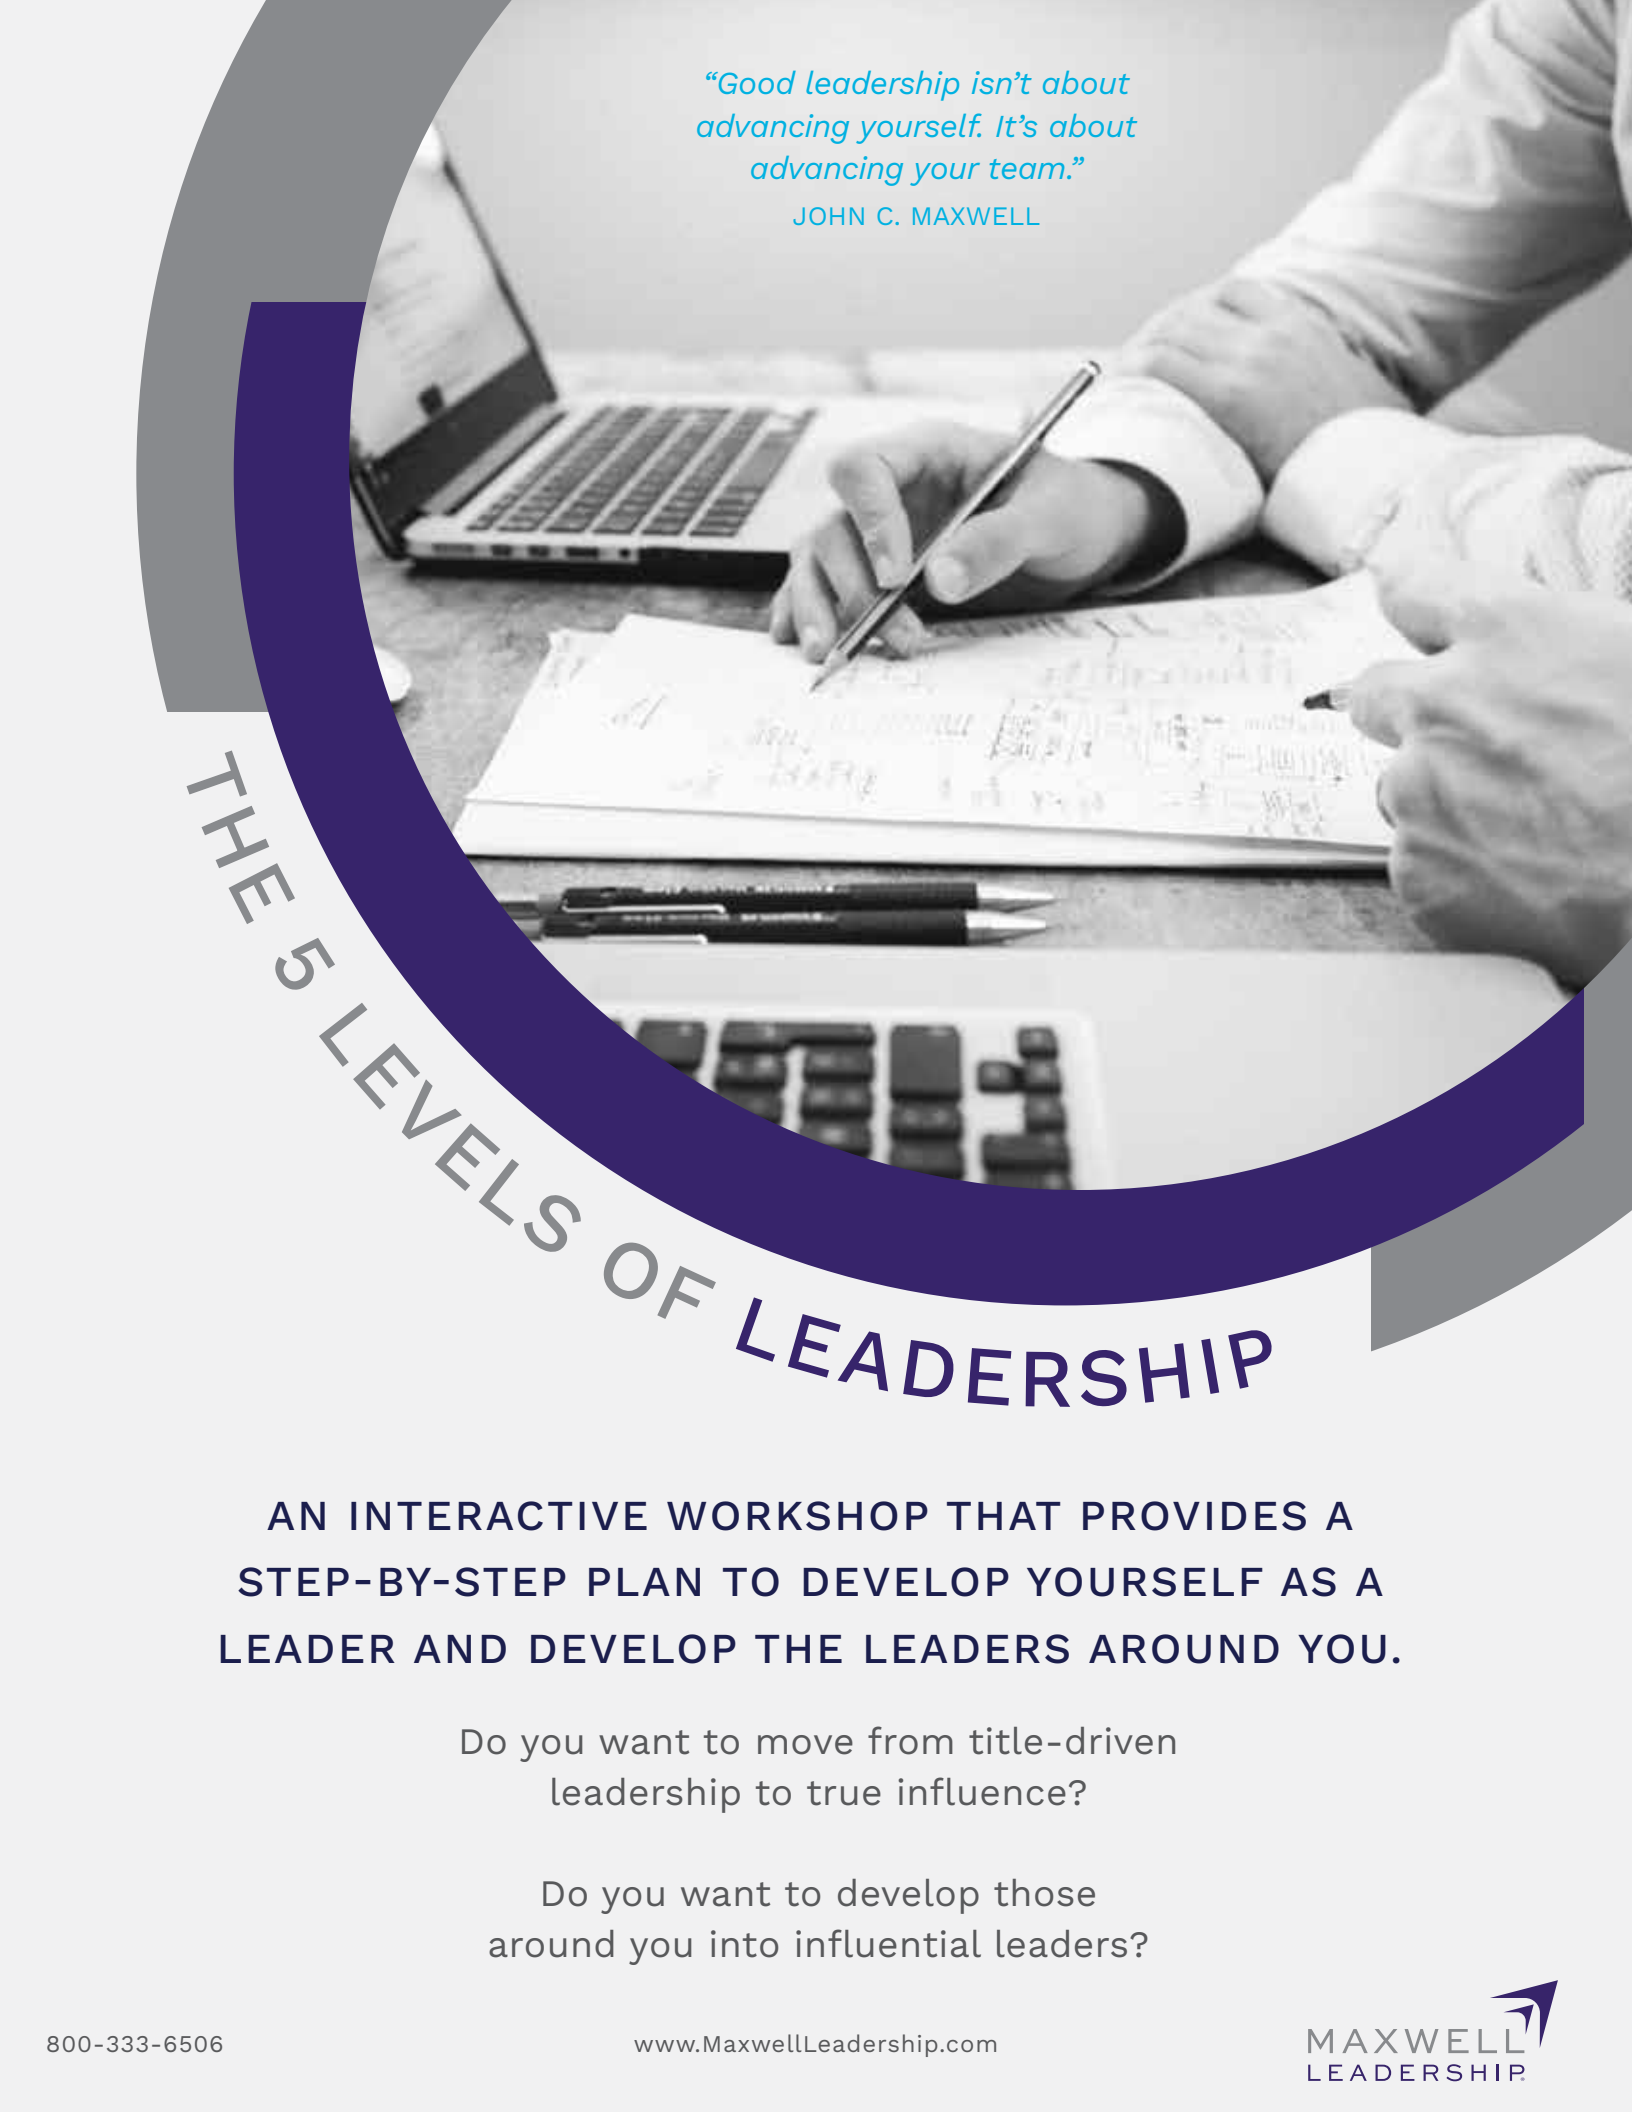

1. The vision of the Careguide and what it is, and how we hope it can be utilized
2. Defining the 5 P's and how to prioritize them while developing a CareGuide
  - a. Patient Care
  - b. People Care
  - c. Practice Care
  - d. Professional Development
  - e. Practice Promotion
    - i. Touch on each and how it pertains to the vision and the CareGuide
3. How to train your team in regards to the CareGuide principals
4. How to utilize the CareGuide to maximize the patient flow and the policies to implement into the 5Ps and future training
  - a. Drill into each point of the policy at a high level

- i. Examples from certain specialties (general, pedo, ortho, etc)
- b. High level overview
  - i. How Care Guide dictates Policy
- c. "Freedom within the framework"
  - i. Boilerplate are the best practices - the freedom to create KPIs that are meaningful to each brand give these policies power
  - ii. Nobody has ever been inspired by someone else's dream

# THE 5 LEVELS OF LEADERSHIP

**AN INTERACTIVE WORKSHOP THAT PROVIDES A  
STEP-BY-STEP PLAN TO DEVELOP YOURSELF AS A  
LEADER AND DEVELOP THE LEADERS AROUND YOU.**

Do you want to move from title-driven  
leadership to true influence?

Do you want to develop those  
around you into influential leaders?

## THE 5 LEVELS OF LEADERSHIP

Introduction to The 5 Levels of Leadership™

- Defining Leadership

1

- Position (beliefs, behaviors & mindsets)
- Upside, downside & best practices
  - Action plan/transitioning to Level 2

2

- Permission (beliefs, behaviors & mindsets)
- Relationship-building strategies & facts
  - Upside, downside & best practices
  - Action plan/transitioning to Level 3

3

- Production (beliefs, behaviors & mindsets)
- TEAM mindset/ cross-collaborative strategies
  - Upside, downside & best practices
  - Action plan/transitioning to Level 4

4

- People Development (beliefs, behaviors and mindsets)
- Seven guidelines to People Development
  - Empowerment/coaching/what do I have to give?
  - Upside, downside & best practices
  - Action plan/transitioning to Level 4

5

- Pinnacle (beliefs, behaviors & mindsets)
- Pinnacle case studies
  - Complete action plan

## EACH LEVEL CONTAINS THE FOLLOWING LEARNING COMPONENTS:

- The upside of that level
- The downside of that level
- Best behaviors
- The Laws of Leaders
- Beliefs that help a leader to advance to the next level
- Action plan to grow through that level and develop the necessary skills to get to the next level
- Identify a clear picture of leadership
- Identify your current level of leadership within the Five Levels
- Learn about each level and what it takes to progress through the levels
- Understand how the Five Levels impacts each individual, the team and the organization

## BY TEACHING YOUR EMPLOYEES THE 5 LEVELS OF LEADERSHIP, THEY WILL:

- Know the core competencies needed to grow as a leader
- Improve their leadership skills
- Better relate to those they lead

# CHRIS GOEDE

EXECUTIVE FACILITATOR AND COACH

---

With more than 18 years of experience starting, growing, and leading companies, Chris shares his extensive background in leadership development and high performance team building to help clients live out leadership in remarkable ways.

As the Executive Vice President of Corporate Solutions Group at Maxwell Leadership, his passions as a leader include leading people to discover and maximize their strengths and contributing high level strategies to achieve top performance.

Prior to joining Maxwell Leadership, Chris launched and led high-growth startup companies in the real estate and manufacturing industries. He applies this diverse business management acumen to drive positive change—both within Maxwell Leadership and client organizations.

Chris studied sports management and business at Liberty University, where he played football before joining the Canadian Football League. He is an active member of various advisory boards influencing change in local communities. Chris and his wife Sara reside in Atlanta, GA and they have two collage-aged children, Ryland and Addi.

# Lacie N. Bourland, MBA, M.Ed., CPXP

**Agenda Item 8(d):**

**Discussion, Consideration, and Possible  
Recommendation to the Board to Approve or Deny The  
Vesper Institute as a Moderate Sedation Board  
Approved Course of Study and to Specifically Address  
Whether Such Course is for Patients  
13 years of Age or Older  
NRS 631.190 & NAC 631.2213  
(*For Possible Action*)**

**NRS 631.190** Powers and duties. [Effective January 1, 2020.] In addition to the powers and duties provided in this chapter, the Board shall:

1. Adopt rules and regulations necessary to carry out the provisions of this chapter.
2. Appoint such committees, review panels, examiners, officers, employees, agents, attorneys, investigators and other professional consultants and define their duties and incur such expense as it may deem proper or necessary to carry out the provisions of this chapter, the expense to be paid as provided in this chapter.
3. Fix the time and place for and conduct examinations for the granting of licenses to practice dentistry, dental hygiene and dental therapy.
4. Examine applicants for licenses to practice dentistry, dental hygiene and dental therapy.
5. Collect and apply fees as provided in this chapter.
6. Keep a register of all dentists, dental hygienists and dental therapists licensed in this State, together with their addresses, license numbers and renewal certificate numbers.
7. Have and use a common seal.
8. Keep such records as may be necessary to report the acts and proceedings of the Board. Except as otherwise provided in [NRS 631.368](#), the records must be open to public inspection.
9. Maintain offices in as many localities in the State as it finds necessary to carry out the provisions of this chapter.
10. Have discretion to examine work authorizations in dental offices or dental laboratories.

[Part 4:152:1951; A [1953, 363](#)] — (NRS A [1963, 150](#); [1967, 865](#); [1993, 2743](#); [2009, 3002](#); [2017, 989, 2848](#); [2019, 3205](#), effective January 1, 2020)

**NAC 631.2213** Permit required; qualifications of applicants. ([NRS 631.190](#), [631.265](#))

1. Except as otherwise set forth in [NAC 631.2211](#) to [631.2256](#), inclusive, no dentist may:

(a) Use general anesthesia or deep sedation for dental patients, except in a facility for which a permit is held as required by [NRS 449.442](#), unless he or she first:

(1) Obtains a general anesthesia permit; or

(2) Employs a dentist who is licensed in this State and who holds a general anesthesia permit to administer general anesthesia to his or her patients, and obtains a certificate of site approval for each location at which general anesthesia, deep sedation or moderate sedation is administered to his or her patients;

(b) Use moderate sedation for dental patients who are 13 years of age or older, except in a facility for which a permit is held as required by [NRS 449.442](#), unless he or she first:

(1) Obtains a general anesthesia permit or a moderate sedation permit pursuant to paragraph (a) of subsection 2; or

(2) Employs a dentist who is licensed in this State and who holds a general anesthesia permit or a moderate sedation permit pursuant to paragraph (a) of subsection 2 to administer moderate sedation to his or her patients who are 13 years of age or older, and obtains a certificate of site approval for each location at which moderate sedation is administered to his or her patients who are 13 years of age or older; or

(c) Use moderate sedation for dental patients who are 12 years of age or younger, except in a facility for which a permit is held as required by [NRS 449.442](#), unless he or she first:

(1) Obtains a moderate sedation permit pursuant to paragraph (b) of subsection 2; or

(2) Employs a dentist who is licensed in this State and who holds a general anesthesia permit or a moderate sedation permit pursuant to paragraph (b) of subsection 2 to administer moderate sedation to his or her patients who are 12 years of age or younger, and obtains a certificate of site approval for each location at which moderate sedation is administered to his or her patients who are 12 years of age or younger.

2. To obtain a general anesthesia permit or moderate sedation permit, a dentist must apply to the Board for such a permit on a form prescribed by the Board, submit any fees that are set by the Board pursuant to [NRS 631.345](#) and produce evidence showing that he or she is a dentist who is licensed in this State, and:

(a) For a moderate sedation permit to administer moderate sedation to a patient 13 years of age or older, the applicant must show evidence of:

(1) The completion of a course of study, subject to the approval of the Board, of not less than 60 hours dedicated exclusively to the administration of moderate sedation, and the successful administration as the operator of moderate sedation to not less than 20 patients; or

(2) The completion of a program for specialty training which is approved by the Commission on Dental Accreditation of the American Dental Association and which includes education and training in the administration of moderate sedation that is equivalent to the education and training described in subparagraph (1) and:

(I) Valid certification in Advanced Cardiac Life Support by the American Heart Association; or

(II) The completion of a course approved by the Board that provides instruction on medical emergencies and airway management.

(b) For a moderate sedation permit to administer moderate sedation to a patient 12 years of age or younger, the applicant must show evidence of:

(1) The completion of a course of study, subject to the approval of the Board, of not less than 60 hours dedicated exclusively to the administration of moderate sedation to patients 12 years of age or younger, and the successful administration as the operator of moderate sedation to not less than 25 patients who are 12 years of age or younger; or

(2) The completion of a program for specialty training which is approved by the Commission on Dental Accreditation of the American Dental Association and which includes education and training in the administration of moderate sedation that is equivalent to the education and training described in subparagraph (1) and:

(I) Valid certification in Pediatric Advanced Life Support by the American Heart Association; or

(II) The completion of a course approved by the Board that provides instruction on medical emergencies and airway management.

(c) For a general anesthesia permit, the applicant must show evidence of the completion of an Advanced Cardiac Life Support course given by the American Heart Association or a course providing similar instruction that is approved by the Board, and:

(1) The completion of a program, subject to the approval of the Board, of advanced training in anesthesiology and related academic subjects beyond the level of undergraduate dental school in a training program as described in the *Guidelines for Teaching Pain Control and Sedation to Dentists and Dental Students*, published by the American Dental Association, 211 East Chicago Avenue, Chicago, Illinois 60611, and available, free of charge, at the Internet address [http://www.ada.org/~media/ADA/Education%20and%20Careers/Files/ADA\\_Sedation\\_Teaching\\_Guidelines.pdf?la=en](http://www.ada.org/~media/ADA/Education%20and%20Careers/Files/ADA_Sedation_Teaching_Guidelines.pdf?la=en); or

(2) The completion of a graduate program in oral and maxillofacial surgery or dental anesthesiology which has been approved by the Commission on Dental Accreditation of the American Dental Association.

3. A holder of a general anesthesia permit may administer general anesthesia, deep sedation or moderate sedation to a patient of any age.

(Added to NAC by Bd. of Dental Exam'rs, eff. 10-21-83; A by R005-99, 9-7-2000; R159-08, 4-23-2009; R004-17, 5-16-2018)

**Timothy A. McDuffee, D.D.S., F.A.G.D.**  
Fellow, Academy of General Dentistry

---

## **Timothy A. McDuffee, D.D.S., F.A.G.D.**

Dr. Tim McDuffee has been a staunch believer in continuing education his entire career. He was one of the founding members and organizers of the Dental Excellence Study Club of Central Ohio in the late eighties. He was a member of the Crown Council. Dr. McDuffee's office was heavily involved in Whitehall Management. His career started as the director of one of Columbus' neighborhood dental clinics. He then went on to partner in a successful practice. When his partner retired he then founded 2 multi-million dollar offices, both of which offered all general dentistry services including IV sedation, implants and orthodontics. After selling both of his offices, he joined the highly respected Advance Dentistry Group, opening and currently the senior dentist at their Hilliard, Oh. location.

Dr. McDuffee is a Fellow of the Academy of General Dentistry. He received his undergraduate degree from The Ohio State University and his Dental degree from The Ohio State University School of Dentistry. He also trained for his I.V. Certification at the Miami Valley Hospital in Dayton, Ohio.

### **EDUCATION:**

**2017-2018:** Comprehensive Orthodontic Program, Dr Jay Gerber. Parkersburg, West Virginia.

**2010-2011:** Comprehensive Implant Externship. Midwest Implant Institute, Worthington, Ohio.

**2005-2006:** I.V. Certification. Miami Valley Hospital. Dayton, Ohio.

**1999-2003:** Comprehensive Dentistry Continuum. The Dawson Center. St Petersburg, Florida.

**1980-1984:** Doctor of Dental Surgery. The Ohio State University School of Dentistry. Columbus, Ohio.  
Degree Conferred June 8, 1984.

**1976-1980:** Bachelor of Science, Major in Animal Sciences. The Ohio State University. Columbus, Ohio.  
Degree Conferred June 7, 1980.

### **LICENSES & CERTIFICATES:**

Fellow, Academy of General Dentistry: Issued July 13, 1990.

Ohio State Dental Board Licence: Issued 1984.

North East Regional Board Certificate: Issued 1984.

U.S. Drug Enforcement Administration registration: Issued 1984.

Certificate in Advanced Cardiac Life Support. American Heart Association (Since 2005).

### **BOARD STATUS:**

I.V. Conscious Sedation Ohio State Dental Board Certified- (2010).

**PRACTICE EXPERIENCE:**

**December 2021 – Present:** Senior Dentist, Advance Dentistry. Hilliard, Ohio.

**June 2016 - August 2022:** Founding Partner, Centerburg Dental Care, Centerburg, Ohio.

**September 1997-December 2020:** Founder, Oak Creek Dental Care, Columbus, Ohio.

**February 1985-September 1997:** General Dentistry, Snyder & McDuffee Dentistry. Columbus, Ohio. Associate/Partner

**September 1984-December 1987:** Dental Director Neighborhood Dental Clinic. Columbus, Ohio.

**MEMBERSHIPS:**

**1986-Present:** Academy of General Dentistry

**1985-Present:** Ohio Dental Association

**1985-Present:** Columbus Dental Society

**1985-Present:** American Dental Association.

# JEAN LOUISE FRANK, DMD MS

---

---

---

## PROFESSIONAL SUMMARY

---

Demonstrated success in providing anesthesia to dental surgery patients undergoing major outpatient surgical procedures. Well-organized and detail-oriented with long standing record of success and safety.

---

## SKILLS

---

- Emergency Response
- Interpersonal Communication
- Flexible and Adaptable
- Teambuilding
- Self-Motivated
- Decision Making
- Dependable and Responsible
- Teamwork and Collaboration
- Excellent Communication
- Multitasking Abilities
- Analytical and Critical Thinking

---

## WORK HISTORY

---

**Dentist Anesthesiologist** , 12/2014 to Current

**Blink, Inc.** – Dublin, Ohio

- Founded outpatient mobile anesthesia delivery practice, exclusively for dentistry
- Built a solid, loyal client base due to excellence in patient care and customer service
- Studied market to determine optimal pricing of services and capitalize on emerging opportunities
- Provide services for dental surgery patients, undergoing outpatient procedures
- Collaborate with other medical professionals to create plan of care
- Interview patients before, during and after procedures to maintain current knowledge of relevant conditions
- Anesthetize and sedate patients, monitor vital signs and equipment and provide post-anesthesia care instructions

**Dental Anesthesia Resident**, 07/2012 to 12/2014

**The Ohio State University School Of Dentistry** – Columbus, Ohio

- Completed pre and post-procedural anesthesia or sedation evaluation before and after each procedure.
- Administered intravenous inhalation and regional anesthetics to render patients insensible to pain.
- Planned and administered general anesthesia, sedation and regional anesthesia.

**General Dentist**, 01/2002 to 07/2012

**Thornwood Dental Center** – South Elgin, Illinois

- Founder of thriving family dental practice
- Responsible for all aspects of patient care
- Responsible for training of all staff positions, accounting, payroll, master scheduling, oversight of ordering all equipment and supplies

**Associate Dentist**, 08/1998 to 05/2003

**Village Green Dental Center** – Aurora, IL

- Extracted teeth, performed root canals and filled cavities with dedication to pain management.
- Supported patient comfort with calm demeanor and individualized pain management.
- Completed consultations with patients for treatment plan.

---

## EDUCATION

---

**Master of Science:** Anesthesia, 12/2014

**Ohio State University** - Columbus, OH

**Doctor of Dental Medicine:** Dentistry, 05/1998

**Southern Illinois University-Dental Medicine** - Alton, IL

**Bachelor of Arts:** Biology, 05/1993

**University of Richmond** - Richmond, VA

# JORDAN MAYBERRY

## Professional Summary

Compassionate dentist with dedication to researching and executing best practices, promoting education in clinical procedures, and implementing new technology.

## Skills

- Gentle patient care
- Practiced in endodontics and oral surgery
- Fixed restorations
- RPD and complete dentures
- Practiced in extractions
- Surgical implant placement and restoration
- Certified by Ohio State Dental Board in IV moderate conscious sedation
- Member, American Dental Association
- Member, Ohio Dental Association
- Member, Academy of General Dentistry
- Member, American Dental Society of Anesthesiology
- Member, American Academy of Implant Dentistry
- Fellow, California Implant Institute

## Work History

### General Practice

#### Advance Dentistry

Nov 2020 - Current

- Practice all aspects of general dentistry, including specialty procedures on fearful patients using IV moderate conscious sedation.

#### Stonecreek Dental Care/ North American Dental Group

Jul 2018 – Oct 2021

Columbus, OH

- Full time practice of all facets of comprehensive general dentistry
- Routinely perform oral surgery including partial and full bony impacted 3rd molar removal, surgical extractions and pre-prosthetic surgery.
- Perform anterior, premolar, and molar endodontics.
- Provide IV moderate conscious sedation on a routine basis for patient comfort.
- Administer oral and nitrous oxide sedation.
- Placement and restoration of dental implants.
- Provide Invisalign orthodontic aligners for correction of malocclusion.

**General Practice Residency**

Miami Valley Hospital

Jul 2017 – Jul 2018

Dayton, OH

- Appropriately diagnosed and treated a variety of diseases and oral injuries in a hospital setting.
- Designed and fitted prosthodontic appliances, including crowns, bridges, partials, and dentures.
- Restoration with amalgam and composite.
- Learned surgical and restorative skills necessary to provide comprehensive dentistry.
- Completed certification in IV moderate conscious sedation in the State of Ohio.
- Developed open rapport with patients, encouraging them to share questions and concerns.

**Education****Doctor of Dental Surgery**

The Ohio State University

2017

Columbus, OH

**Bachelor of Science: Biology**

Muskingum University

2011

New Concord, OH

# **Rebecca Donaldson, DMD**

Dr. Rebecca Donaldson has been an associate dentist at Advance Dentistry in Cincinnati, Ohio since 2006. She obtained an Ohio Conscious Sedation Permit in 2006. Prior to that she spent four years in the United States Navy where she reached the rank of Lieutenant Commander. She then worked as an associate dentist for several years before owning a private practice which was eventually merged with Advance Dentistry.

Since her time in the Navy until present Dr. Donaldson has trained many dental assistants and has encouraged them to advance their skills and education. She has mentored six young women that have gone on to become dentists themselves.

## **Education**

**1984-1988** Bachelor of Arts, Major in Biology, Blackburn College, Carlinville, Illinois.  
Degree achieved May 1988.

**1988-1992** Doctor of Dental Medicine, Southern Illinois School of Dental Medicine, Alton, Illinois. Degree achieved May 1992.

**1992-1993** General Practice Residency in Dentistry, Southern Illinois University School of Dental Medicine. East St. Louis, Illinois. Training completed June 1993

## **Practice Experience**

**2006-Present:** Associate Dentist , Advance Dentistry, Cincinnati, Ohio

**2001-2006:** Mt. Adams Dentistry - owner of private practice, Cincinnati, Ohio

**1997-2001:** Associate Dentist, Anderson and Palmer Dental Office, Florence, Kentucky

**1993-1997:** United States Navy, reached rank of Lieutenant Commander

## **Licenses, Permits and Memberships**

Ohio Dental license: issued December 2000

Ohio Conscious Sedation Permit: issued December 2010

American Dental Association, Ohio Dental Association, Cincinnati Dental Society

Dr Scott E. Sayre, DDS

**Residency:** Miami Valley Hospital, Dayton, OH

**DDS:** Ohio State University College of Dentistry,  
Columbus Ohio

**Diplomate:** American Board of Oral Implantology/Implant  
Dentistry, International Congress of Oral Implantologists

**Fellow:** Academy of General Dentistry, American Academy  
of Implant Dentistry

**Graduate:** Misch Implant Institute Certified: IV Sedation,  
Ohio State Dental Board

**Member:** American Dental Association, Ohio Dental  
Society, Cincinnati Dental Society

**Misc:** Dr. Sayre has written numerous published articles  
and has lectured in Canada, Hong Kong, and Venezuela (as  
well as throughout the United States).

He is a Colonel in the USAF Reserves and served as Chief  
of Dental Services of the 445th Airlift Wing, WPAFB,  
Dayton, Ohio. Dr. Sayre has been on many humanitarian  
missions including Senegal and Ghana in Africa, and  
Guatemala in Central America.

Dr. Sayre has had a lifelong passion for planes and  
flying. For many years he was a member of the Lima Lima  
Flight Team, which is based in Chicago, Illinois. He remains  
a certified pilot and still enjoys flying small airplanes.

## **CURRICULUM VITAE**

**NAME:** John B. Roberson, D.M.D., F.A.C.D., F.I.C.D., F.I.C.O.I.,  
F.I.A.O.M.S.

**EDUCATION:** University of Cincinnati Medical Center  
Oral & Maxillofacial Surgery Residency Program  
P.O. Box 670558, 231 Bethesda Avenue  
Cincinnati, OH 45267-0558  
Certificate Date: June 14, 1997

Doctor of Dental Medicine  
University of Mississippi Medical Center  
School of Dentistry  
Jackson, MS 39216  
Degree: D.M.D.  
Degree Date: May 29, 1993

Bachelor of Science Degree  
University of Southern Mississippi  
Magna Cum Laude  
Hattiesburg, MS 39401  
Major: Biology/Emphasis in Zoology  
Degree Date: December, 1985

### **COURSES DEVELOPED and COPYRIGHTED**

#### **1.D.O.M.E.S© -Dental Office Medical Emergency Simulations©**

Medical emergencies can, do and will happen in the dental office. This program will better prepare the dentist when they face a medical emergency in the dental office. Competency and confidence are necessary to manage a medical emergency. Simulation exercises will be "close to real" for the participant. This program has been designed to give dentists the clinical skills needed to manage medical emergencies in their office competently utilizing Human Patient Simulators (HPS) in an "close to real" simulated scenarios. This intense "hands-on", interactive program is 8 hours and the dentist will rotate through 4 Simulation Labs multiple times where he/she will act as Team Leader as well as Assistant during "life-like" medical emergencies.

Simulations can be any of the following: Anaphylaxis, Allergic Reaction, Asthmatic Attack, Foreign Body Obstruction, Hypoglycemia, Stroke, Syncope, Local Anesthetic Toxicity, Seizure, Angina, Myocardial Infarction, Sudden Cardiac Arrest, Emesis/Aspiration, Adrenal Crisis, Hyperventilation, Epinephrine Overdose

#### **Objectives:**

- Train, prepare and organize dentists to recognize, treat and prevent complications associated with medical emergencies through simulation on Human Patient Simulators.
- Recognize and discuss management of common medical emergencies
- Recognize adverse reactions and implement appropriate interventions
- Utilize emergency equipment such AEDs, Vital Sign Monitors, Airway adjuncts, etc.
- Utilize contents within the emergency drug kit and know their uses
- Demonstrate airway management and rescue techniques
- TEAM training

## **2. D. O. S. E. S© -Dental Office Sedation Emergency Simulations©**

Sedation emergencies can, do and will happen in the dental office. This program will better prepare the dentist when they face a sedation emergency in the dental office. Competency and confidence are necessary to manage a sedation emergency. Simulation exercises will be "close to real" for the participant.

This program has been designed to give dentists the clinical skills needed to manage sedation emergencies in their office competently utilizing Human Patient Simulators (HPS) in an "close to real" simulated scenarios.

This intense "hands-on", interactive program is 8 hours and the dentist will rotate through 4 Simulation Labs multiple times where he/she will act as Team Leader as well as Assistant during "life-like" sedation emergencies.

Simulations can be any of the following: Anaphylaxis, Allergic Reaction, Asthmatic Attack, Foreign Body Obstruction, Hypoglycemia, Stroke, Syncope, Local Anesthetic Toxicity, Seizure, Angina, Myocardial Infarction, Sudden Cardiac Arrest, Emesis/Aspiration, Adrenal Crisis, Hyperventilation, Epinephrine Overdose, Laryngospasm, Narcotic Overdose, Benzodiazepine Overdose and Cardiac Dysrhythmias.

### **Objectives:**

- Train, prepare and organize dentists to recognize, treat and prevent complications associated with sedation emergencies through simulation on Human Patient Simulators.
- Recognize and discuss management of sedation emergencies
- Recognize adverse reactions and implement appropriate interventions
- Utilize emergency equipment such AEDs, Vital Sign Monitors, Airway adjuncts, etc.
- Utilize contents within the emergency drug kit and know their uses
- Demonstrate airway management and rescue techniques
- TEAM training

### **3. P. E. D. O. S© -Pediatric Emergency Dental Office Simulations©**

Pediatric medical emergencies can, do and will happen in the dental office. This program will better prepare the dentist when they face a pediatric medical emergency in the dental office. Competency and confidence are necessary to manage a pediatric medical emergency. Simulation exercises will be “close to real” for the participant.

This program has been designed to give dentists the clinical skills needed to manage pediatric medical emergencies in their office competently utilizing Human Patient Simulators (HPS) in an "close to real" simulated scenarios. This intense “hands-on”, interactive program is 8 hours and the dentist will rotate through 4 Simulation Labs multiple times where he/she will act as Team Leader as well as Assistant during "life-like" sedation emergencies.

Simulations can be any of the following: Anaphylaxis, Allergic Reaction, Asthmatic Attack, Foreign Body Obstruction, Hypoglycemia, Stroke, Syncope, Local Anesthetic Toxicity, Seizure, Angina/Myocardial infarction, Sudden Cardiac Arrest, Emesis/Aspiration, Adrenal Crisis, Hyperventilation, Epinephrine Overdose, Laryngospasm, Narcotic Overdose, Benzodiazepine Overdose and Cardiac Dysrhythmias.

#### **Objectives:**

- Train, prepare and organize dentists to recognize, treat and prevent complications associated with pediatric medical emergencies through simulation on Human Patient Simulators.
- Recognize and discuss management of pediatric medical emergencies
- Recognize adverse reactions and implement appropriate interventions
- Utilize emergency equipment such AEDs, Vital Sign Monitors, Airway adjuncts, etc.
- Utilize contents within the emergency drug kit and know their uses
- Demonstrate airway management and rescue techniques
- TEAM training

#### **4. A.L.S.G.D© - Advanced Life Support for General Dentistry©**

##### **Objectives:**

- Train, prepare and organize dentists to recognize, treat and prevent medical emergencies
- Recognize and discuss management of common medical emergencies
- Describe emergency equipment such AEDs, Vital Sign Monitors, Airway adjuncts, etc.
- Describe all contents within the emergency drug kit and know their uses
- Demonstrate airway management and rescue techniques
- Dentists and staff will participate in a lecture then go through 5 skills stations which include Airway Station, AED Station, Vital Signs Station, Emergency Drugs Station and Anaphylactic Station

#### **5. A.L.S.G.D© - Advanced Life Support for Sedation Dentistry ©**

##### **Objectives:**

- Train, prepare and organize dentists to recognize, treat and prevent complications and emergencies including those related to sedation and anesthesia.
- Recognize and discuss management of common medical emergencies including those related to sedation and various forms of anesthesia
- Recognize adverse reactions and implement appropriate interventions,

- Describe emergency equipment such AEDs, Vital Sign Monitors, Airway adjuncts, Capnography, etc.
- Describe all contents within the emergency drug kit and know their uses.
- Demonstrate airway management and rescue techniques during sedation.
- Recognize and treat any potential sedation emergency situations.
- Sedation Dentists and staff will participate in a lecture then go through 5 skills stations which include Airway Station, AED Station, Vital Signs Station, Emergency Drugs Station and Anaphylactic Station

## **6. A.L.S.P.D. ©– Advanced Life Support for Pediatric Dentistry©**

### **Objectives:**

- Train, prepare and organize dentists to recognize, treat and prevent complications and emergencies associated with pediatric patients in sedated state or non-sedated state.
- Recognize and discuss management of common medical and sedation emergencies involving pediatric patients
- Recognize adverse reactions and implement appropriate interventions.
- Describe emergency equipment such AEDs, Vital Sign Monitors, Airway adjuncts, etc.

John B. Roberson, D.M.D.

Curriculum Vitae

Page -16-

- Describe all contents within the emergency drug kit and know their uses and doses for pediatric patients.
- Demonstrate airway management and rescue techniques in the pediatric patient
- Dentists and staff will participate in a lecture then go through 5 skills stations which include Airway Station, AED Station, Vital Signs Station, Emergency Drugs Station and Anaphylactic Station related to the pediatric patient.

**Agenda Item 8(e):**

**Discussion, Consideration, and Possible  
Recommendation to the Board Regarding the Hiring  
of the Following as Part-Time On-Site Evaluator/  
Inspector Employees  
NRS 631.190, NAC 631.2221  
(For Possible Action)**

**NRS 631.190** Powers and duties. [Effective January 1, 2020.] In addition to the powers and duties provided in this chapter, the Board shall:

1. Adopt rules and regulations necessary to carry out the provisions of this chapter.
2. Appoint such committees, review panels, examiners, officers, employees, agents, attorneys, investigators and other professional consultants and define their duties and incur such expense as it may deem proper or necessary to carry out the provisions of this chapter, the expense to be paid as provided in this chapter.
3. Fix the time and place for and conduct examinations for the granting of licenses to practice dentistry, dental hygiene and dental therapy.
4. Examine applicants for licenses to practice dentistry, dental hygiene and dental therapy.
5. Collect and apply fees as provided in this chapter.
6. Keep a register of all dentists, dental hygienists and dental therapists licensed in this State, together with their addresses, license numbers and renewal certificate numbers.
7. Have and use a common seal.
8. Keep such records as may be necessary to report the acts and proceedings of the Board. Except as otherwise provided in [NRS 631.368](#), the records must be open to public inspection.
9. Maintain offices in as many localities in the State as it finds necessary to carry out the provisions of this chapter.
10. Have discretion to examine work authorizations in dental offices or dental laboratories.

[Part 4:152:1951; A [1953, 363](#)] — (NRS A [1963, 150](#); [1967, 865](#); [1993, 2743](#); [2009, 3002](#); [2017, 989, 2848](#); [2019, 3205](#), effective January 1, 2020)

**NAC 631.2221 Inspections and evaluations: Qualifications of inspectors and evaluators; authorized participation by members of Board.** ([NRS 631.190](#), [631.265](#))

1. When an inspection or evaluation is required to issue or renew a general anesthesia permit or moderate sedation permit, the Board may designate two or more persons, each of whom holds a general anesthesia permit or moderate sedation permit and has practiced general anesthesia, deep sedation or moderate sedation, as applicable, for a minimum of 3 years preceding his or her appointment, exclusive of his or her training in the administration of anesthesia or sedation. At least one of the inspectors or evaluators must have had experience in the evaluation of dentists using general anesthesia, deep sedation or moderate sedation, as applicable. At least one member of the inspection or evaluation team must have had substantial experience in the administration of the type of anesthesia or sedation contemplated for use by the dentist being evaluated and must hold the type of permit for which the dentist is applying.

2. Any member of the Board who is a dentist may observe or consult in any inspection or evaluation. A member of the Board who is not a dentist may be present at an observation but may not participate in any grading or evaluation resulting from the inspection or evaluation.

(Added to NAC by Bd. of Dental Exam'rs, eff. 10-21-83; A 7-30-84; R005-99, 9-7-2000; R004-17, 5-16-2018)

**Agenda Item 8(f):**

**Approval/Rejection of Temporary Anesthesia Permit**

**NAC 631.2254**

*(For Possible Action)*

**NAC 631.2254** Temporary permits. ([NRS 631.190](#), [631.265](#))

1. The Board may grant a temporary permit to administer general anesthesia and deep sedation or a temporary permit to administer moderate sedation to an applicant who meets the qualifications for a permit to administer that type of anesthesia or sedation pursuant to [NAC 631.2213](#).
2. A temporary permit is valid for not more than 90 days, but the Board may, in any case it deems appropriate, grant a 90-day extension of the permit.
3. The Board may require the holder of a temporary permit to pass an on-site inspection as a condition of retaining the permit. If the holder fails the inspection, his or her permit will be revoked. In case of revocation, the holder of a temporary permit may apply to be reinspected in accordance with the procedures set forth in [NAC 631.2235](#).

(Added to NAC by Bd. of Dental Exam'rs, eff. 11-28-90; A by R005-99, 9-7-2000; R004-17, 5-16-2018)

**Agenda Item 8(f)(1):**

**Creed S Haymond, DDS – General Anesthesia**

\_\_\_\_ Yes ☒ No

Where: \_\_\_\_\_ When: \_\_\_\_\_

3) Completed a graduate program in Oral and Maxillofacial Surgery approved by the Commission of Accreditation of the American Dental Association? ☒ Yes \_\_\_\_ No

Where: U. of Washington When: 1987 - 1991

---

I hereby make application for a General Anesthesia Permit from the Nevada State Board of Dental Examiners. I understand that if this permit is issued, I am authorized to administer to a patient of any age general anesthesia, deep sedation or moderate sedation ONLY at the address listed above. If I wish to administer general anesthesia, deep sedation or moderate sedation at another location, I understand that each site must be inspected and issued a general anesthesia site permit by the Board prior to administration of general anesthesia. I understand that this permit, if issued allows only me to administer general anesthesia, deep sedation or moderate sedation. I have read and am familiar with the provisions and requirements of NRS 631 and NAC 631 regarding the administration of general anesthesia.

I hereby acknowledge the information contained on this application is true and correct, and I further acknowledge any omissions, inaccuracies, or misrepresentations of information on this application are grounds for the revocation of a permit which may have been obtained through this application. It is understood and agreed that the title of all certificates shall remain in the Nevada State Board of Dental Examiners and shall be surrendered by order of said Board.
