By signing below, I hereby affirm and attest, that if I ever decide to open, operate, or work at a pop-up, portable, or mobile dental clinic/facility or practice in the State of Nevada while licensed by the Nevada State Board of Dental Examiners, I acknowledge that infection control measures apply to those types of practices and facilities in the same manner as they apply to traditional/stationary dental practices and facilities. Thus, I agree to self-report any proposed pop-up, portable, or mobile dental clinic or practice at least ten (10) days in advance of my intent to open, operate, or work at same, so that the Board can determine if, when, and how to inspect the operation for infection control purposes prior to the commencement of patient treatment. I acknowledge that failure to self-report and allow the Board to conduct an infection control inspection of said operation, if they deem it appropriate, could result in disciplinary action and/or a loss of a compliant infection control status.

By signing below, I hereby affirm and attest, that I have answered the above questions truthfully, accurately, and by myself, the licensee, so named on this form as Owner and so stating, under penalties of perjury, that all answers provided herein are provided willfully. I further state that I authorize and empower the Nevada State Board of Dental Examiners or its agents, staff, or appointed authority to contact any person, firm, service, agency, entity, or the like to obtain information deemed necessary or desirable by the Board to verify any information contained in my infection control inspection application.
