Prescription Monitoring Program

Annual Self Query

NAC 631.045

All Nevada licensed dentists who hold a valid Controlled Substance (CS) permit issued by the Nevada State Board of Pharmacy are now required to perform annually a minimum of one (1) self-query report through the Pharmacy Task Force Prescription Monitoring Program (PMP) for the issuance of controlled substances pursuant to NAC 631.045. The purpose of the self-query report is to ensure the controlled substances being prescribed by you are valid prescriptions.

Self-Query Report

When performing the self-query you will obtain a list of the controlled substances issued by you (for the period selected) to your patients. This information should be reviewed by you to ensure all controlled substances issued to the patients are valid prescriptions authorized by you.

Patient Report

If you suspect a patient may be drug shopping. You may perform a query on that patient to receive information regarding any controlled substances that may have been issued to the patient to avoid issuing additional controlled substances.

PMP Instructional Sheet and Portal Information

The licensed dentist who holds a valid Controlled Substance (CS) permit issued by the Nevada State Board of Pharmacy shall submit an attestation confirming compliance with this requirement on the dental license renewal form. Failure to conduct the self-query report annually shall be deemed unprofessional conduct pursuant to NAC 631.230.

If you are not signed up to access the Prescription Monitoring Program database, you may [click here](#) to access the instructional sheet to obtain access to the PMP portal.

No Valid Control Substance Permit

If you do not hold a valid Controlled Substance permit issued by the Nevada State Board of Pharmacy you are not required to perform the annual self query. However, you may not issue controlled substances in the State of Nevada without holding a valid Controlled Substance Permit issued by the Nevada State Board of Pharmacy.

Thank you.

The Nevada State Board of Dental Examiners
