Misappropriation of \$140,000 by Board members Pisani, Pinther, Champagne and Blasco for their own personal or improper purpose

Governor Sandoval, Attorney General Laxalt and Madam Secretary: Good Morning. My name is Malcolm LaVergne. I am one of the Las Vegas Dental Association attorneys that would like to read this statement to you today. You were kind enough to listen to us at your last meeting and we appreciate that Governor Sandoval has since appointed four new Dental Board members. There is documented evidence of the misappropriation of \$140,000 by Board members Pisani, Champagne, Pinther and Blasco for their own personal or improper purpose. Quoted directly from the Dental Board minutes, Board counsel, John Hunt said "that the licensees that stipulate chose to voluntarily make donations to different public health programs in lieu of some discipline or charges", (*Exhibit 1*) What he did not mention was that these licensees, donated \$70,000 to Pisani, Pinther and Champagne's organization in lieu of discipline or charges. Board member Pisani is the President of this organization NNDHP, Champagne and Pinther are directly involved and Kathy Champagne is one of the directors. First these donations were ruled illegal by the Legislative Auditors, second these Board members did not disclose to the auditors that the money went to their organizations and third these Board members knew that their organizations were not public entities but private. As a note we are only bringing forth matters that are relevant and under the jurisdiction of this committee.

Board counsel Hunt stated that all Board members are selected from the Nevada Dental Association. When you connect the dots NNDHP's Adopt-a-Vet program is encompassed under the NNDS which is a component of the Nevada Dental Association.

(Evidence of the involvement and control of NNDHP by Pisani, Pinther and Champagne is attached as Exhibits 2, 3 and 4).

Two dentists called the Executive Director of the Board to report an unlicensed hygienist who was working at their practices. Rather than thanking these dentists for reporting the hygienist, these Board members selected from the Nevada Dental Association charged the two dentists for unknowingly hiring an unlicensed hygienist. As punishment, these two dentists had to sign stipulations to pay donations of \$100,000 of which \$50,000 went to Board member Pisani, Champagne and Pinther's organizations. It is improper to force a dentist to pay private organization money in lieu of discipline or charges. It is even more improper when there is a conflict of interest because these Dental board members are part of and control the organization receiving the donations. This type of self-dealing using the state board powers to extract donations is, at the very least unethical. Pisani, Champagne Pinther and Blasco had full knowledge that this money was going directly to this organization because they voted to approve the stipulations against these two dentists which said they had to pay the money to Adopt-a-Vet.

(Attached Please see exhibits 5, 6, 7 and 8 signed stipulations with donations).

What makes this more reprehensible is that the only legal way to charge this money was through fines, which failing to deposit this money into the State General Fund, would be a violation of NRS 631.350(4). However, this was impossible because the two dentists also had to pay attorney and investigation fees to the board in the amount of \$6,250.00. It is an undisputed material fact that there are no statutory provisions that exist that would have allowed these Board members to use this money for their own personal endeavors. It is worth repeating, that to date none of these Board members or the Executive Director Shaffer has returned the \$140,000 to these licensees.

The Executive Director Shaffer, oversaw Pisani, Champagne, Blasco and Pinther vote for a third investigated dentist to send money to Adopt-A-Vet organization while they simultaneously voted to reward Shaffer with a \$10,000 bonus because of her diligence in creating so much income from disciplining dentists. (See Board meeting minutes, Exhibit 9). The state Dental Board disciplinary process has turned into a profit making center to incentivize bonuses and pay increases for Board staff. Secretary of State records, Board minutes and the Legislative Audit Report clearly show that these Board members and the Executive Director shared in the profits from either overcharging or improperly charging investigated licensees.

Debra Shaffer is the very same Executive Director that the Legislative Auditors caught over charging 50% of the investigated licensees for the costs of their investigations *(See Legislative Audit Report Exhibit 10)*.

This would explain why Board members Pisani, Champagne and Pinther continue to retaliate against anyone who questions their flawed disciplinary process. We believe the investigated dentists have not asked for their money to be returned for fear of retaliation.

It is respectfully submitted that board members Pisani, Pinther, Champagne and Blasco be removed from the board due to their blatant incompetence or dishonorable conduct.

Governor Sandoval you are the only official in this State that has the statutory mandate to remove Board members from this Dental Board for incompetence or dishonorable conduct under the provisions of NRS 631.150. Please consider all of the facts brought forward today and if necessary, call my law office if you require any additional information.

195 the new Public Health Officer and the new Public Health Dental Hygienist and the funding of those positions be
196 funded by the Radiology Inspection fees, which their task is to find stable funding for both positions. She added
197 that there was discussion of seeking to have the positions paid by the licensing fees from the Dental Board. She
198 noted that it was the committee's recommendation to engage in discussions with the Dental Board about the
199 possibility. She spoke of another discussion held regarding a recommendation to introduce one medical
200 professional to the Dental Board and to add one dental professional to the Medical and Nursing Boards. She added
201 further, that another recommendation was that should there be a legislative or regulation change requiring
202 mandatory continuing education requirements for dental licensure and medical licensure to include a class
203 regarding public health. She noted that there hope was to have dental, medical, and nursing professionals have a
204 better understanding of each profession and how it relates to the need for oral health. She mentioned the
205 discussion the committee had to search for funding for programs that provide direct services for public health and
206 the underserved, which lost funding during the recession, and that they are now looking to having conversations
207 with the Board to discuss a possible formal process. She added that the committee was aware of the history of the
208 Board to distribute money to public health programs. Board Counsel clarified to Ms. Garvey that the Board does
209 not use fines to distribute money to the public. He indicated that the licensees that stipulate choose to voluntary
210 make donations to different public health programs in lieu of some discipline or charges. He further clarified that
211 fines must go to the general fund of the state. Ms. Garvey added that, perhaps, the discussion to have some of the

Northern Nevada Dental Health Programs

Providing no-cost to low-cost dental care for at risk children and veterans

Our Story

NNDHP at a Glance

NNDHP is the largest organization in Nevada providing dental care to uninsured, at-risk children. And we're the largest organization providing dental care to low-income veterans who don't qualify at the VA. See how

we grew from a modest group of concerned doctors to becoming a model for other communities.

1985

The Pediatric Dental Care Program was started by a group of dentists including Dr. Norm Beesley, Dr. Larry Champagne, Dr. Dennis Arch and Ms. Kathy (Champagne) Peak. They collaborated with the Northern Nevada Dental Society (NNDS) to provide dental care to at-risk youths in the Reno area.

1998

As the program grew it was renamed to the Northern Nevada Dental Health Program (NNDHP).

[Translate »](#)

2003

NNDHP joins resources with Saint Mary's Mission Services to serve more of Northern Nevada's at-risk children.

2012

NNDHP merged with Community Health Alliance (CHA) [formerly HAWC] who provides administrative support for our two dental programs. Thus providing even more program growth and long-term sustainability.

2013

Adopt a Vet Dental Program (AAVD) merges with NNDHP. Together, we can serve more low-income veterans in need.

2015

NNDHP becomes Northern Nevada Health Programs. And serves as the overarching administrator for the children's and veterans' programs. The children's program is renamed to Healthy Smile Healthy Child.

Honored NNDHP Supporters

Each year, NNDHP/Joel F. Glover DDS Charly Golf Tournament generously donates tournament proceeds to support NNDHP. Thanks to their loyal support, and donations from other individual donors, NNDHP continues to grow each year.

Because of your kindness, we can help more at-risk children and low-income veterans regain healthier smiles and healthier lives. Thank you!

Veterans

Adopt a Vet Dental Program – AAVD

In 2009, Linda Halgh volunteered at the Carville Park Apartments, a subsidized housing unit in Reno. During her visit, she found 60 veterans living with life-threatening oral decay. Knowing they had no family or other support, Linda and her husband Wayne tirelessly recruited local dentists to provide pro bono dental care to these veterans.

As they uncovered our community's huge need, the Halghs founded AAVD in 2010. It began as the veterans' outreach program of South Reno Baptist Church, where they attend. Soon after, AAVD became an independent nonprofit in order to serve more low-income veterans and to raise funds for their lab costs and emergency dental procedures.

Children

Healthy Smile Healthy Child – HSHC

This program began in 1982 as the Pediatric Dental Care Program. It began when Dr. Norm Beesley and several of his colleagues wanted to provide Reno's low-income children greater access to dental care.

As the program grew, it joined forces with other local organizations providing dental or medical care. By sharing resources and collaborating efforts, we served thousands more children. As our program grew, our name changed and our services grew. Our current name, Healthy Smile Healthy Child, reflects who we serve. And the greater impact of why we do it.

Healthy Smile Healthy Child

- Donated nearly \$3 million in dental services since 2008
- 115 dental volunteers
- 3,297 children have received care

*6. New Business (For Possible Action)

*s. Approval for Bonus/Increase for Staff Members-NRS 631.190 (For Possible Action)

Dr. Sill indicated that the Budget & Finance committee was recommending a \$5,000 bonus for the Executive Director and for staff a bonus of 3% of their salaries. He noted to the Board that bonuses were not budgeted for, however, recognizes the need to budget for it in the future. He added that there was a freeze on salaries that was lifted as of July 1, 2014. Mrs. Hummel indicated that there are funds available, and that she projects a surplus this fiscal year and that reserves would be used to cover the recommended bonus. She indicated that the Board has had a significant turnaround financially thanks to the staffs' diligence and the way the disciplinary process has been set up. She projected that they will have a more significant income than what they had budgeted for.

Mrs. Hummel noted to the Board that it had been over 5 years since the State implemented a freeze and that the increases the staff received 18 months prior was due to the restructure of duties, but that it was a rather nominal increase. Dr. Kinard inquired of Mrs. Hummel that if they were to double the recommendation would there be a problem. Mrs. Hummel responded that she saw no problem in doubling the recommendation, and commented that they had the ability to allocate the budget around. Dr. Kinard commented that in working with staff they have done a tremendous job and that staff had not had a cost of living increase in four-to-five (4-5) years. He noted that a bonus would be a lot less expensive than giving a cost-of-living increase. He commented that he would appropriate if the Budget & Finance committee would begin to budget for bonuses/ pay increases in the future.

MOTION: Dr. Kinard made the motion to double the recommendation of the Budget and Finance Committee (\$10,000 bonus for the Executive Director and 6% bonus to other staff). Motion was seconded by Dr. Sill. Discussion: Mrs. Villigan inquired if they will they ever discuss cost-of-living increases. Dr. Kinard stated that they would start budgeting for it and that they should hold a meeting to discuss. Dr. Sill commented that due to the freeze that was given by the Governor they had not been able to address previously, however, that now with lift of freeze they could compare the positions and compensate fairly. Dr. Blasco stated that the Board could take a look at other state agencies and how see how the employees of similar positions are compensated and align staff accordingly. All were in favor.

Audit Highlights

Nevada State Board of Dental Examiners

Highlights of performance audit report on the Nevada State Board of Dental Examiners issued on May 24, 2016. Legislative Auditor report # LA16-14.

Background

Assembly Bill 6 of the 1951 Session, known as the Nevada Dental Practice Act established the current system of regulation related to dentistry. The Board consists of 11 members appointed by the Governor who are to: 1) develop and maintain programs to ensure only qualified professionals are licensed to practice dentistry and dental hygiene and 2) ensure violators of the laws regulating dental practitioners are sanctioned. The Board's register showed 1,809 and 1,393 actively licensed dentists and hygienists as of April 1, 2016.

The Board's office is located in Las Vegas and staffed with six people including the Executive Director. For fiscal year 2015, the Board had revenues of \$1.3 million and expenses of \$1.1 million.

The Board receives complaints from the public and licensed practitioners regarding services provided. The Board received 374 complaints from July 1, 2013, to December 31, 2015. About 64% of complaints were remanded, 32% resulted in some form of additional Board action, and 4% were not yet resolved.

Purpose of Audit

The purpose of this audit was to determine whether the Board has assessed reasonable costs to licensees for investigating and resolving complaints and disciplinary matters.

The scope of our audit focused on a review of the Board's disciplinary process and costs assessed for investigations resulting from approved Board actions during calendar years 2014 and 2015. Certain information included data from prior years to provide additional context or complete our analysis.

Audit Recommendations

This audit report contains 14 recommendations to improve the cost assessment and investigation processes. These recommendations address cost tracking, developing Board approved policies regarding cost assessment, a review of DSO investigations, and ensuring records are sufficient, accurate, and retained.

The Board accepted 11 recommendations and rejected 3 recommendations.

Recommendation Status

The Board's 60-day plan for corrective action is due on August 18, 2016. In addition, the six-month report on the status of audit recommendations is due on February 20, 2017.

Summary

The Board did not always assess reasonable costs to licensees for investigating and resolving complaints and disciplinary matters. Due to the Board's inadequate tracking of costs, many licensees were overcharged for the cost of investigations. Although the amounts overcharged were not significant to the Board overall, some amounts that individual licensees were overcharged were substantial. In addition, four licensees made charitable contributions totaling over \$140,000 as required by stipulation agreements; however, charitable contributions are not allowed under NRS 631.350. Board management has started making changes to correct problems found during the audit.

The Board's reporting and monitoring of legal expenses was not adequate. First, the manner in which legal expenses are reported reflects a lower amount than is actually spent. Second, the Board can reduce its legal expenses by hiring its own General Counsel. Since the Board is funded by fees, it is responsible for monitoring expenses to ensure resources are spent efficiently to minimize the burden on licensees.

The Board needs to provide greater oversight of complaint investigations performed by Disciplinary Screening Officers (DSOs). Investigation results are not reviewed and sufficient guidance has not been developed to provide additional assurance that DSO conclusions and recommendations are based on sufficient evidence. Without a review process, variations in DSO decisions are more likely to occur. In addition, we found the Board's investigation files were incomplete.

Key Findings

The Board overcharged licensees for investigative costs in almost half of the investigations in the last 2 years, including several over \$1,000. Overcharges were likely due to the Board lacking an effective process for accurately determining the amount of investigative costs for individuals. At the same time the Board overcharged some licensees, other licensees were charged less than actual investigation costs after negotiations between the parties. (page 8)

As part of the provisions imposed in Board approved stipulation agreements, four licensees agreed to donate over \$140,000 to organizations that provide health-related services. However, charitable contributions are not allowable under NRS 631.350. Furthermore, these amounts were not recorded in accounting records since the checks were made payable to the charitable organizations. (page 11)

The Board paid about \$200,000 more, on average, in legal expenses in fiscal years 2014 and 2015 than shown in its financial statements. Actual legal expenses were almost three times the reported amounts and exceeded the annual contract maximum for one firm. This occurred because the actual amount paid for legal expenses was reduced by the cost recoveries and assessments related to disciplinary matters. Recording expenses in this manner reduces transparency and, therefore, may impact decisions made by policy makers and others. (page 13)

The practice of reducing actual legal expenses also affected the Board's contract with outside counsel. Specifically, the contract approved in October 2013 stated payments will not exceed \$175,000 per year. However, payments exceeded \$300,000 in both calendar years 2014 and 2015, the first two full years under the new contract terms. Additionally, the overall contract maximum of \$700,000 has almost been reached with over a year left in the 4-year contract. (page 14)

The Board could save approximately \$100,000 per year by hiring a General Counsel while still utilizing the services of outside counsel when necessary. This estimate assumes the Board would still use outside counsel about 20% of the time. Boards have a fiduciary duty to be an effective steward of public resources, which in this case is fees collected from licensees. (page 15)

Investigation results and conclusions of DSOs are not reviewed by supervisory personnel or an independent review committee. A review process would help verify conclusions and recommendations are based on clear and sufficient evidence. Without a review process, there is an increased risk that investigations could result in licensees being treated too harshly or lightly. Although disciplinary actions are approved at Board meetings, Board members are not reviewing documentation specifically related to investigations and negotiations. Other state's dental boards and Nevada medical boards we contacted have review processes in place for investigations, including review committees. (page 16)

The Board's office does not have critical documentation related to the disciplinary process. In addition, when documentation was located it was often not in the disciplinary file as anticipated. The Board does not have certain documentation related to disciplinary proceedings because it is generated by, or submitted directly to, the Board's outside counsel. Furthermore, the Board does not have an organized filing method with checklists to ensure standard documentation related to disciplinary actions is onsite and retained. Without adequate documentation, the Board cannot fully support disciplinary actions or ensure compliance with statutes. (page 19)

Dear Mr. LeVergne:

On November 29, 2018, you appeared before the Nevada State Board of Dental Examiners Board Meeting and under public comment advised the Board that you are legal counsel for the Las Vegas Dental Association and its members. Further, you read a public statement into the record and provided a copy of your written statement along with exhibits to the Board.

During public comment the Board requested additional information regarding the exhibits since it did not identify the licensees being referenced in the documents. In addition, Board Member Lee requested this matter be placed on the Board's agenda for the next meeting.

On February 15, 2019, the Nevada State Board of Dental Examiners sent you a copy of the Board's agenda and noticed under Agenda item 8(o) is *"Discussion and review of the public comment(s) submitted by the attorney on behalf of the members of the LVDA"*.

On February 22, 2019, when Agenda Item 8(o) was considered by the Board and open for discussion you were not present at the meeting or members of the LVDA. Therefore, the Board voted to "Table" this matter and notice the matter on the March 22, 2019 scheduled Board Meeting agenda.

Please be advised, should you not appear at the March 22, 2019 board meeting or submit the requested additional information identifying the licensees referenced in your documents submitted as exhibits, the Board will move forward with the *"Discussion and*

General Counsel stated that this was not the subject regarding Ms. Tsou's public comment. General Counsel went on to explain that in certain circumstances an affidavit executed by all parties in lieu of a court reporter in where a licensee is entering into a stipulation agreement prior to an informal hearing being scheduled may be a cost savings to the licensees. This would only be offered in circumstances where the licensee is representing by counsel and request to resolve the matter through stipulated agreement prior to an informal hearing.

****5 minutes Recess****

RDH Shadler stated she received a text one night from a Tina Tsou and asked her if she would be interested in being a board member. So she applied that night and was happy to be here. Samantha Sturges, RDH introduced herself. Michael McDonald introduced himself – provides legislative services for Board.

Back to Agenda Item 6(e) General Counsel reiterated this has nothing to do with informal hearings. This would be for those stipulations requested prior to an informal hearing. The requests come directly from the licensees and/or their attorneys. This would save licensees costs of having to pay for a court reporter. Discussion: Board Member

Blasco states this comes to those who say yes I'll sign but then later turn around and say that's not what happened. General Counsel advised there will be an affidavit that all parties will sign. This would only be provided if no informal hearing has ever been noticed. Board Member Lee inquired if the process would change. General Counsel stated no the process stays the same this would only be in a situation when a licensee wants to settle before a notice of an informal hearing is issued. Lengthy discussion on the complaint process and how it is defined in statute, and how the board should determine if this is something they want to do.

MOTION: Board Member Pisani motioned the Board approve the policy to be used only prior to noticing an informal hearing or at the request of the licensee's attorney. General Counsel explained the Medical Board's process vs our process. Public Member Cioffi stated given the constant allegations from the same group of bias. General Counbsel advised Public Member Cioffi of the issue of bias by DSO's and the Review Panel and General Counsel advsied the Board that the DSO's and the Review Panel have no authority to take action against a licensee. The DSO and the Review Panel only make opinions/recommendations and the Board is not bound by those opinions. Board Member Lee asked doesn't the statute state that a board member can review a complaint. General Counsel states there is one staute that references a board member "and" the investigator, However, when you look at the entire statutes as a whole, you realize the intent is the word "and" should have been "or" because the Board Members must not be provided confidential information. Since complaints/investigations are deemed confidential from the Board, the legal opinion is the word is interpreted as "or". Board Member Lee argued that the initial collection of information should be shared with the Board and wants it looked at it prior to approving stipulation agreements. It was noted that this will be an agenda item on the next meeting.

Dear Debra Shaffer-Kugel,

I implore your help to reinstate Dr. Georgene Chase as a Dentist in the great State of Nevada. I am a 74-year old woman, after moving to Nevada from California, I was able to find the very best, affordable dental care that I have ever received. Dr. Chase has helped me to avoid losing my teeth and has helped my family restore their dental health.

I want you to know that I moved to Dayton, Nevada 2-years ago for a better life. I wanted and needed the very best dentist in Nevada. Due to all of the recommendations I received, I chose Dr. Chase as my dentist.

Dr. Chase is by far the most intelligent, ethical, educated and integrous dentist that I have ever had the pleasure of working with. Not to mention that Dr. Chase is kind, considerate, and thoughtful to her patients. When you meet Dr. Chase you immediately trust her. Dr. Chase has integrity, does not overcharge her patients or try to sell you the most expensive treatment. Dr. Chase genuinely seems to want to help her patients. Dr. Chase is able to give her patients choices on the kind of care that is available to them not just the highest price available. We need more dentists and doctors in Nevada not to mention the United States like Dr. Georgene Chase.

For the first time in my life, I have found superior dental care that I can financially afford. My smile, my self-worth and my life is substantially better for having Dr. Chase as my dentist.

In Nevada where dental cost is over to top and unreachable for most of us, I have been blessed to have Dr. Chase as my dentist. She is responsible for bringing down the cost of dental care and still gives us the best dental care available in the Northern Nevada region.

When you walk into Smile Restore you will notice how traditional it is, it is not a fancy office. It is my understanding, after talking with some of Dr. Chase's patients that most of them have been under regular treatment of Dr. Chase's for 30-years. They trust her to be honest and give them the best care available. Dr. Chase makes Northern Nevada a better place to live. Reno, Nevada needs Dr. Chase. We, her patients, need our dentist and our affordable dental health care returned to us.

Sincerely,

Carolyn Easley

Re: Georgene Chase D.D.S.
Smile Restore

Dear Nevada State Board of Dental Examiners,

I have volunteered to write this statement in support of Georgene Chase D.D.S. and her Dental Clinic, Smile Restore. I do not know the specifics as to why Dr. Chase must come before the Board but I feel compelled to speak up on her behalf.

I work as a Family Physician in a rural Nevada Acute Care Clinic where the poorest of the poor in our area come for medical and dental care. When I see patients with dental issues, I have Dr. Chase's telephone number memorized to give to them. Most of them already know the cash price to have a tooth pulled locally – that is the only option they think possible - if they can get the money together. I tell them to get gas money together or to get a ride to Reno because there is a good chance through Dr. Chase at Smile Restore that their tooth can be fixed and maybe for free or on a sliding scale. What an incredible resource! Especially for the young people having early dental issues, facing the prospective trauma (on multiple levels) of having a permanent tooth pulled – plunging them deeper into their already difficult life. I have seen the tears as they tell me of what they thought was their only option. Dr Chase and Smile Restore give hope and healing!

Every time my family and I go in to Smile Restore I see these patients, like my patients, appreciating and benefiting from the care. I suspect that many of the people who work for Smile Restore have been patients there first and Dr. Chase has given them "a leg up". Once last year a veteran came in as I was leaving at 5 p.m., obviously in pain. Dr Chase didn't even ask his name, she just took him back and attended to him. What an example! Truly a good Samaritan.

I often pre-pay for the supplies Smile Restore needs for my family because otherwise the Clinic does not have them. They tell me that I help others with what is left over. Recently Dr. Chase suggested that I could rent her house because she was in danger of losing it. She was going to live in the small space above her barn so as to keep practicing her noble vocation. Are you aware that she adopted multiple small children who needed her?

In terms of dental treatment, I have found Dr. Chase to be diagnostically accurate in my case and I find her dental technical skills impeccable and her philosophy scientifically advanced. She found the small apical abscess in the adjacent tooth when I had persistent pain after I had my upper incisor (#9) removed and an implant placed (very traumatic). I consider the local dentist with whom I shared the misdiagnosis a very good dentist and still a good friend.

If the Board does find problems with Dr. Chase's practice or the management of Smile Restore, please be merciful and allow Dr. Chase to continue her valuable care for the community. Dr. Chase cares for a significant number of destitute patients (at considerable risk to herself of communicable disease), all of whom would, in her absence, need to be cared for by the general dental community.

Honestly, rather than censure Dr. Chase, help her. To you dentists on the Board, send your excess supplies. Call her and ask what she could use today. Consider sending your Office Manager half day a month to assist her – that “pearl of great price” who most likely (as has been my experience) is the reason your operation is successful and copasetic with all the requirements. If my statement does not help Dr. Chase and Smile Restore with your review, I would bet your Office Manager would come back (granted probably having found things that could be corrected) with a very positive opinion regarding what is being done there every day multiple times a day.

Thank you for considering Mercy.

Sincerely,

Tom J. Walsh M.D. Ltd
