INFECTION CONTROL  
COMMITTEE MEETING

TUESDAY, MAY 4, 2021

6:00 P.M.

**ADDENDUM PUBLIC BOOK**

**Addendum :**  
**Mini OSAP Dental Infection Control Boot Camp**

## **Mini OSAP Dental Infection Control Boot Camp**

### **Calibration of Infection Control Inspections for Dental Facilities in Nevada**

Presented by Marie T. Fluent, DDS

2-hour webinar—Intended for infection control inspectors in Nevada

Pursuant to NAC 631.1785, no later than thirty (30) days after becoming the owner of an office or facility in the state of Nevada, where dental treatments are to be performed, dentists are required to acquire an initial inspection of their office or facility. This webinar is intended to help inspectors perform assessments using the Nevada Board of Dental Examiners Infection Control Inspection/Survey form in a methodical, standardized manner, to help ensure compliance with CDC Guidelines. Attendees will be better equipped to calibrate their inspections and help dental practice owners provide a safe dental visit for their patients and employees within the state of Nevada.

#### **Course Objectives:**

1. Identify regulatory agencies that impact the practice of dentistry in the state of Nevada
2. Discuss Infection Control Inspection/Survey form from the Nevada Board of Dental Examiners
3. Review Addendum Infection Control/Survey Form—During COVID-19 Pandemic
4. Identify education and training resources for inspectors and dental practices

### **Review of CDC Interim Guidance for Infection Control in the Dental Setting During the COVID-19 Pandemic**

Presented by Marie T. Fluent, DDS

2-hour webinar—for the entire dental team

As we are well into the COVID-19 pandemic, dental personnel have resumed routine dental care and have adapted to “a new normal” clinical routine. Yet, Interim guidance for infection control in the dental setting continues to be updated based on available scientific information and the current situation in the United States. This webinar will address the most up-to-date interim infection control guidance for dental settings during the COVID-19 pandemic published by the Centers for Disease Control and Prevention. The dental team will review the current policies and protocols, confidently navigate the

ever changing landscape of dentistry in the era of COVID-19, and learn how OSAP (Organization for Safety, Asepsis and Prevention) can help ensure the safest dental visit.

**Course Objectives:**

1. Discuss CDC Interim Infection Prevention and Control Guidance for Dental settings during the COVID-19 Pandemic
2. Integrate CDC Guidelines into clinical practice
3. Identify educational resources to help keep current with infection control guidance to provide a safe environment for patients and dental personnel
