(For Possible Action)**

**NRS 631.190** Powers and duties. [Effective January 1, 2020.] In addition to the powers and duties provided in this chapter, the Board shall:

1. Adopt rules and regulations necessary to carry out the provisions of this chapter.
2. Appoint such committees, review panels, examiners, officers, employees, agents, attorneys, investigators and other professional consultants and define their duties and incur such expense as it may deem proper or necessary to carry out the provisions of this chapter, the expense to be paid as provided in this chapter.
3. Fix the time and place for and conduct examinations for the granting of licenses to practice dentistry, dental hygiene and dental therapy.
4. Examine applicants for licenses to practice dentistry, dental hygiene and dental therapy.
5. Collect and apply fees as provided in this chapter.
6. Keep a register of all dentists, dental hygienists and dental therapists licensed in this State, together with their addresses, license numbers and renewal certificate numbers.
7. Have and use a common seal.
8. Keep such records as may be necessary to report the acts and proceedings of the Board. Except as otherwise provided in [NRS 631.368](#), the records must be open to public inspection.
9. Maintain offices in as many localities in the State as it finds necessary to carry out the provisions of this chapter.
10. Have discretion to examine work authorizations in dental offices or dental laboratories.

[Part 4:152:1951; A [1953, 363](#)] — (NRS A [1963, 150](#); [1967, 865](#); [1993, 2743](#); [2009, 3002](#); [2017, 989, 2848](#); [2019, 3205](#), effective January 1, 2020)

**NRS 631.265** Permit to administer or supervise administration of general anesthesia, minimal sedation, moderate sedation or deep sedation; regulations.

1. No licensed dentist or person who holds a restricted license issued pursuant to NRS 631.275 may administer or supervise directly the administration of general anesthesia, minimal sedation, moderate sedation or deep sedation to dental patients unless the dentist or person has been issued a permit authorizing him or her to do so by the Board.

2. The Board may issue a permit authorizing a licensed dentist or person who holds a restricted license issued pursuant to NRS 631.275 to administer or supervise directly the administration of general anesthesia, minimal sedation, moderate sedation or deep sedation to dental patients under such standards, conditions and other requirements as the Board shall by regulation prescribe.

(Added to NRS by 1983, 278; A 1989, 1740; 2001, 2692; 2015, 3876)

**NAC 631.2227 Inspections and evaluations: Minimum standards for physical facilities and equipment.** ([NRS 631.190](#), [631.265](#)) A dentist's office inspected or evaluated for the issuance or renewal of a general anesthesia permit, moderate sedation permit or certificate of site approval must meet the following minimum standards with regard to physical facilities and equipment:

1. The operating theater must be large enough to accommodate the patient adequately on a table or in a dental chair and to allow an operating team consisting of at least three persons to move freely about the patient.

2. The operating table or dental chair must:

(a) Allow the patient to be placed in a position such that the operating team can maintain the airway;

(b) Allow the operating team to alter the patient's position quickly in an emergency; and

(c) Provide a firm platform for the management of cardiopulmonary resuscitation.

3. The lighting system must be adequate to allow an evaluation of the patient's skin and mucosal color. An alternate lighting system must derive its power from batteries and must be sufficiently intense to allow completion of any procedure underway at the time of a general power failure.

4. Suction equipment must be available that allows aspiration of the oral and pharyngeal cavities. An alternate suction device that will function effectively during a general power failure must be available.

5. A system for delivering oxygen must have adequate full-face masks and appropriate connectors, and be capable of delivering oxygen to the patient under positive pressure. An adequate alternate system for delivering oxygen is also required.

6. A recovery area must be provided that has available oxygen, adequate lighting, suction and electrical outlets. The recovery area may be the operating theater. A member of the staff must be able to observe the patient at all times during the recovery.

7. Except as otherwise provided in this subsection, ancillary equipment must include:

(a) A laryngoscope complete with an adequate selection of blades and spare batteries and bulbs;

(b) Endotracheal tubes and appropriate connectors;

(c) Oral airways;

(d) A tonsillar or pharyngeal suction tip adaptable to all office suction outlets;

(e) An endotracheal tube type forcep;

(f) A sphygmomanometer and stethoscope;

(g) An electrocardioscope and defibrillator;

(h) Adequate equipment for the establishment of an intravenous infusion;

(i) A pulse oximeter; and

(j) A capnography monitor.

↳ Except as otherwise provided in subsection 8, a dentist's office inspected or evaluated for the issuance or renewal of a moderate sedation permit is not required to have the ancillary equipment described in paragraphs (a), (b), (e), (g) and (j).

8. In addition to the requirements of subsection 7, if general anesthesia, deep sedation or moderate sedation is administered at the dentist's office to a patient 12 years of age or younger, the following equipment must be available at the dentist's office:

- (a) A pediatric size ambu bag and masks;
- (b) Pediatric blood pressure cuffs;
- (c) A laryngoscope complete with an adequate selection of blades for use on pediatric patients;
- (d) Appropriately sized endotracheal tubes and appropriate connectors;
- (e) An electrocardioscope and defibrillator;
- (f) Pediatric pads for use with an electrocardioscope and defibrillator; and
- (g) Small oral and nasal airways.

(Added to NAC by Bd. of Dental Exam'rs, eff. 10-21-83; A by R005-99, 9-7-2000; R004-17, 5-16-2018)

**NAC 631.2231 Inspections and evaluations: Maintenance of emergency drugs. (NRS 631.190, 631.265)**

1. Except as otherwise provided in this section, a dentist's office inspected or evaluated for the issuance or renewal of a general anesthesia permit, moderate sedation permit or certificate of site approval must maintain emergency drugs of the following categories which must be immediately available for use on the patient:

- (a) Vasopressor;
- (b) Corticosteroid;
- (c) Bronchodilator;
- (d) Muscle relaxant;
- (e) Intravenous medication for the treatment of cardiopulmonary arrest;
- (f) Appropriate drug antagonist;
- (g) Antihistaminic;
- (h) Anticholinergic;
- (i) Antiarrhythmic;
- (j) Coronary artery vasodilator;
- (k) Anti-hypertensive; and
- (l) Anti-convulsive.

2. In addition to the requirements of subsection 1, if general anesthesia, deep sedation or moderate sedation is administered at a dentist's office to a patient 12 years of age or younger, the dentist's office must maintain the following emergency drugs:

- (a) Appropriate dosages of epinephrine or a pediatric epinephrine auto-injector;
- (b) Adenosine;
- (c) Aminodarone;
- (d) Magnesium sulfate; and
- (e) Procainamide.

3. Except as otherwise provided in subsection 2, a dentist's office that is inspected or evaluated for the issuance or renewal of a moderate sedation permit is not required to maintain the emergency drugs described in paragraphs (d), (e), (i) and (k) of subsection 1.

(Added to NAC by Bd. of Dental Exam'rs, eff. 10-21-83; A by R005-99, 9-7-2000; R004-17, 5-16-2018)

## **COURSES DEVELOPED and COPYRIGHTED**

### **1.D.O.M.E.S© -Dental Office Medical Emergency Simulations©**

Medical emergencies can, do and will happen in the dental office. This program will better prepare the dentist when they face a medical emergency in the dental office. Competency and confidence are necessary to manage a medical emergency. Simulation exercises will be "close to real" for the participant. This program has been designed to give dentists the clinical skills needed to manage medical emergencies in their office competently utilizing Human Patient Simulators (HPS) in an "close to real" simulated scenarios. This intense "hands-on", interactive program is 8 hours and the dentist will rotate through 4 Simulation Labs multiple times where he/she will act as Team Leader as well as Assistant during "life-like" medical emergencies.

Simulations can be any of the following: Anaphylaxis, Allergic Reaction, Asthmatic Attack, Foreign Body Obstruction, Hypoglycemia, Stroke, Syncope, Local Anesthetic Toxicity, Seizure, Angina, Myocardial Infarction, Sudden Cardiac Arrest, Emesis/Aspiration, Adrenal Crisis, Hyperventilation, Epinephrine Overdose

Objectives:

- Train, prepare and organize dentists to recognize, treat and prevent complications associated with medical emergencies through simulation on Human Patient Simulators.
- Recognize and discuss management of common medical emergencies
- Recognize adverse reactions and implement appropriate interventions
- Utilize emergency equipment such AEDs, Vital Sign Monitors, Airway adjuncts, etc.
- Utilize contents within the emergency drug kit and know their uses
- Demonstrate airway management and rescue techniques
- TEAM training

## **Timothy A. McDuffee, D.D.S., F.A.G.D.**

Dr. Tim McDuffee has been a staunch believer in continuing education his entire career. He was one of the founding members and organizers of the Dental Excellence Study Club of Central Ohio in the late eighties. He was a member of the Crown Council. Dr. McDuffee's office was heavily involved in Whitehall Management. His career started as the director of one of Columbus' neighborhood dental clinics. He then went on to partner in a successful practice. When his partner retired he then founded 2 multi-million dollar offices, both of which offered all general dentistry services including IV sedation, implants and orthodontics. After selling both of his offices, he joined the highly respected Advance Dentistry Group, opening and currently the senior dentist at their Hilliard, Oh. location.

Dr. McDuffee is a Fellow of the Academy of General Dentistry. He received his undergraduate degree from The Ohio State University and his Dental degree from The Ohio State University School of Dentistry. He also trained for his I.V. Certification at the Miami Valley Hospital in Dayton, Ohio.
